

# 70 -- BIG BUSY STORES -- 70

of the widely known J. C. Penney Syndicate—The United Store is one of them. The tremendous buying power of this syndicate enables us to give you every day in the year high grade merchandise, (not samples), from the manufacturers direct to you at the extreme lowest prices—these prices the same to every one, the same each and every day.

It stands to reason that no one concern nor no small syndicate can compete with our prices taking as we do in most instances—the entire output of factories.

Absolutely no one of our 70 stores buy any bankrupt stocks, nor worn out samples—We sell you no second hand goods—But the best the manufacturer has at less money than you pay for any inferior merchandise. **We Can Always Sell for Less—WHY**—It costs the manufacturer nothing to sell this syndicate, we pay no traveling man's expenses, such as hotel, railroad or restaurant bills—no expensive delivery service, you pay for no bad bills—nor no other parties' premiums—These are not added to your bill here.

JURY ALLOWS PLAINTIFF \$160 BY ITS DECISION.

Hess Case on Trial During the Forenoon—Others Are Set.

Harry Bertram, of North Powder, suing Christ Peterson, of the same town, won a verdict of \$160 in circuit court last evening when the jury returned a decision to that effect. The case was appealed from the lower court.

Following the disposal of the North Powder case, the state case against Hess for alleged theft of some hides at Elgin, came to issue and went to the jury today.

Report on City Manager Next Week.

Baker, June 19.—A special meeting of the directors of the Commercial club has been called for next Tuesday evening to hear the report of the committee appointed to investigate the city manager plan of municipal government, which committee, consisting of Attorney A. A. Smith, chairman, Joseph Stoddard and Harry S. Bowen, was named at the last meeting. The members of the committee have not made known the nature of the report they will make, but if action is to be taken so that the question may be brought before the voters this fall, there is no time to be lost.

How Not to Drown.

A person who has not learned to swim, who falls into water, really drowns himself because he struggles to climb out. Should he keep cool and immerse his body, excepting his nostrils, he could float until help reached him. No one drowns with his nostrils above the surface and his mouth closed. By many experiments it was ascertained years ago that a fish—not a mammal—will live ten or twelve days out of the water if its gills are kept thoroughly wetted, and a man or woman with nostrils above the surface will not drown—Philadelphia Ledger.

Held Him to the Rules.

An old soldier on leaving the army wrote to his colonel in the following terms:

"Sir—After what I've suffered, tell the army to go to blazes."

Imagine his astonishment on receiving a reply in the usual official manner: "Sir—Any suggestions or inquiries as to movements of troops must be entered on army form 123 X. Y. Z., a copy of which I am inclosing. Yours, etc."—London Telegraph

A Peer Showing.

"How's your boy getting on in college?"  
"Not very well. They batted him out of the box in the third inning the other day."—Detroit Free Press.

## ASSAULTED IN HER BED

SPOKANE MUSIC TEACHER BRUTALLY TREATED.

Left Senseless and House Set on Fire Saved Her Own Life.

Spokane, June 19.—Mrs. G. K. Leshar, a vocal teacher of this city, was brutally assaulted in her home early this morning by an unknown man. She was left senseless and the

fiend then set fire to her home. Mrs. Leshar revived sufficiently to feel the hot flames near her and crawled to a place of safety. Her home was totally destroyed. The police think this is the work of a degenerate.

### Meals on Time

A good oil stove gives full heat just as soon as it's lighted. There's no waiting for the fire to catch up or the oven to heat. Meals can be started later and still be served right on time. That means less work and less time in the kitchen.

### New Perfection OIL COOK STOVE

burns kerosene, the clean, cheap fuel and gives an intense heat that can be regulated just as you want it. It does all sorts of cooking and baking just as well as a wood or coal stove—and without tainting the food. Don't cook in a hot kitchen this summer. Don't lug coal and wood and ashes. Get a New Perfection. It saves all this trouble and it's economical, too. Ask your dealer for the New Perfection.
