JUNE SPRAYING TIME AT HAND

CLAUDE C. CATE WARNS FRUITMEN.

Points Out Date and Manner of Spraying Local Fruit.

In order to successfully reduce the number of wormy apples to the minimum at harvest time, it is very essential to prevent as many of the first brood of larvae or worms from entering the fruit as is possible and thereby proportionately reduce the number of the second brood which is the more serious in the most sections of the Grande Ronde valley. The first brood of moths in Union county probably appear about June 15 to June 30, depending upon the climatic conditions. This season a few of the moths were noticed on June 15 and on June 20 quite a number were found.

The eggs, which are laid singly, are minute, scale-like objects, about one-twentieth of an inch in diameter, pearly white in color and somewhat translucent. They require from seven to ten days to hatch.

The fruit should be covered with spray at the time eggs are hatching, but it is considered the best policy to apply the spray at the time it will be most effective in controlling the maximum portion of the brood. If spray is applied too early, the fruit will outgrow the covering before the brood is past and a second application will be necessary in order to get good results. Therefore, it will be well to wait until a few eggs are hatched before starting the sprayer.

Judging from the number of moths that have emerged so far this season the proper time for applying the spray will be about June 25 to July 1.

Spray with arsenate of lead, two (2) pounds to 50 gallons of water. If lime sulphur is to be used for scab, use two (2) pounds of lead to 50 gallons of diluted solution. Use one gallon of lime sulphur to 35 gallons of water. "Back Leaf 40" may be added to the above combination for the control of Aphis, (one part of Black Leaf 40 to 1000 parts of water). Use high pressure and nozzle that will produce fine mist. Spray thoroughly.

CLAUDE C. CATE.

Coughs and Colds Weaken the System.

Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50c. bottle of Dr. King's New Discovery to-day. It will stop your cough. The first dose helps. The best medicine for Stubborn Coughs, Colds and all Throat and Lung Troubles. Mr. O. H. Brown, Muscatine, Ala., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children. 50c and \$1.00, at your Druggist.
