LEAGUE OPENS GAME JAN. 13

REFEREES AND UMPIRES WILL BE SELECTED.

First of Many M. I. A. A. Games, at Pendleton Tonight.

By January 13 all candidates for positions on teams in the city basketball league must be registered with Secretary John Rudd. The list is already well rounded out and to all appearances the material that will be seen in this schedule, is to be the very best in the city.

Selection of a list of men suitable as umpires and referees, from which officials will be picked from time to time, will be made within a few days by the directors of the league, and as most of those who are up on the game are going to play, it will likely develop that someone with keen eye and cool nerve will have to "back up" on the rules and handle the whistle.

The opening game is less than a week away, and it appears that interest will be marked from the start off.

The M. I. A. A. squad left this morning for Pendleton to meet the Pendleton high school, and as this is the first trip which the team has taken, and because the schedule which the squad has closed up for is largely "on the road," the backers at home are anxious to hear how the team behaves on a foreign floor.

By HAL SHERIDAN.

(Written for the United Press.)

New York, Jan. 8.—Golf enthusiasm has run riot in the United States for some years but owing to weather conditions in the northern states, it has been only a three season sport. The indomitable spirit of the golfer however has overcome even bad weather conditions and for the first time several clubs will hold winter tournaments in the territory around New York.

The first of these winter tournaments was staged on the course of the Lakewood Country club. Most of the players turned in low scores and all of them vowed that their game was just as good during the cold weather as during the summer. The only drawback is the roughness of the greens. It slows up the putting considerably but this one disadvantage is overbalanced by long drives and snappy approaches.

A feature that has aroused interest in winter golf was the tournament held on the roof of the Astor Hotel recently. The fans who had put their clubs up for the winter thinking it was too cold to play, have had a revival of interest after seeing a number of experts using their clubs on the glass enclosed roof. The roof tournament was a play for form and was attended by many social leaders.

Golf in the southern states will have the benefit of the two prominent professionals who have started a twelve weeks' tour. M. J. Brady of Wallaston and Gil Nicholls of Wilmington start their southern tour at New Orleans going from there to Beaumont, Houston, San Antonio and El Paso. California will also see some of their playing and if time permits, they go over the links at the Denver Country Club.

These two golfers expect to come more than 10,000 miles on their trip despite the fact that Nicholls was injured so badly in an auto smashup last summer that his life was despaired of.

In some of the middle western states, winter golf has been indulged in at least up to the first heavy snow. The Omaha Field Club and the courses at Des Moines and St. Paul have had their following of winter golfers this year and plans are being made to keep the links in condition up to the last minute.

Ice yachting suffered a late start this year owing to the poor ice conditions and lack of favorable breezes in the past fortnight. On at least a dozen different days when ice fleets were scheduled to sail off cup events in rivers and bays in New Jersey, the sailors sat around the stoves whistling for a breeze and rehashing the races of other years. From this time forward, however, the prospect is good for some exciting events. The ice is smoother and free from snow than it was last year and many speedy looking yachts have made their initial appearance.

Golfers to Announce 1915 Courses. New York, Jan. 8.—The annual meeting of the United States Golf association will decide today upon the courses for the three golf champion-

ships of the year. Owing to the many protests from western golfers which arose last year, the executive committee submitted the proposition of courses to the members in a mail vote, the result of which will be announced at today's meeting.

Try This for Neuralgia

Thousands of people keep on suffering with Neuralgia because they do not know what to do for it. Neuralgia is a pain in the nerves. What you want to do is to soothe the nerve itself. Apply Sloan's Liniment to the surface over the painful part—do not rub it in. Sloan's Liniment penetrates very quickly to the sore, irritated nerve and allays the inflammation. Get a bottle of Sloan's Liniment for 25 cents of any druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied but it does give almost instant relief.

Notice of Stockholders Meeting.

The annual meeting of the stockholders of the State Bank of Imbler will be held at the banking rooms on January 12, 1915, at 2:00 o'clock p. m. for the purpose of electing directors for the ensuing year and for the transaction of such other business as may properly come before the meeting.

Women of Sedentary Habits:

Women who get but little exercise are likely to be troubled with constipation and indigestion and will find Chamberlain's Tablets highly beneficial. Not so good as a three or four mile walk every day, but very much better than to allow the bowels to remain in a constipated condition. They are easy and pleasant to take and most agreeable in effect. Obtainable everywhere.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

—Adv.

'tween Meals

SNOWFLAKES are the bases for many delightful bites.

The kiddies need something just like these appetizing and nourishing crackers.

With a bowl of milk, or with jelly or butter—they are insured a pleasing and wholesome luncheon to "tide them over" until dinner time.

Keep a box of SNOWFLAKES on hand for the youngsters.

ALL GROCERS SELL THEM

ELECTRIC LIGHTS WERE INVENTED TO SUPPLY A NECESSITY. ALL OTHER METHODS OF CREATING ARTIFICIAL light were unsatisfactory. Candles were dim and unreliable; gas, dirty and dangerous; kerosene, dull, smoky, odorous and also dangerous to health and property. When electric lights were introduced there was but one drawback. They cost considerably more than other lights. This objection has been overcome and electric lights are now the most economical as well as the most satisfactory light.
