CHARITY WILL HAVE CENTER

GEDDES BUILDING MADE CHARITY HEADQUARTERS.

Public May Leave Orders by Telephone for Charity Contributions.

By REV. LEON L. MYERS.

I am sure that the hearts of all people are touched with a keen feeling of sympathy as the continuous reports come to us from time to time of the suffering in our own city on account of a lack of sufficient food or clothing.

This is done until the poor business man knows not where to look or what to do. It isn't every business man that is in a position to yield generously to every call for charity.

Where there is a general need only a co-operative effort of all the people can absolute justice be done. Especially is there a need for co-operative effort on the part of all Christians of our city.

The Christian church has rented the old Geddes store building which they will make a center from which will be distributed that which the Spirit prompts the Children of Mercy to send to the poor.

The church will also strive to look after the spiritual needs of people who may not as yet have received the great blessing of salvation from the Lord.

Monday night: "The Wonderful Savior." Tuesday night: "The Wonderful Bible." Wednesday night: "The Wonderful World We Live In."

Remember the place of meeting will be the old Geddes building now known as the "Anthony Building" on the corner of Fir and Monroe streets.

Minister Myers promises a series of sermons that will at once reach the people and at the same time be food for thought and the church desires that all who read these lines respond in whatever way they can either by some material gift to the Lord or by attending these nightly meetings to hear what the Lord may desire of you.

Come. Music will be furnished by local talent. Special music every night.

FALLACIES POINTED OUT.

High School Boy Doesn't Want to Be an Angel, Avers Speaker.

Something of the things that all the Sunday Schools and the young men who ought to be in Sunday school were tersely told in a brief speech at the M. E. Church last evening by Mr. Newmyer, a traveling man who "makes" territory tributary to La Grande.

The address was given as an introduction to the community sing at the Methodist church last evening, which was fairly well attended despite the disagreeable weather.

Miss Maude Goodwin of Oakland, where she is popular as a soprano, was in demand in La Grande yesterday and was heartily enjoyed.

Our Own Grinding Plant

The mechanical work must be equally as careful as the examination itself. The prescription must be filled with Scientific Precision. This is done in our own Laboratory on the Premises, where we grind all of our own lenses.

We guarantee our lenses to be absolutely correct, scientifically and mechanically.

Fitting and Adjusting. The glasses must be made up in frames or mountings that will be suited to each individual case. The appearance of the glasses, when worn, must be considered. We provide mountings to harmonize with the features and give handsome and stylish effects.

Specialties. We prescribe toric glasses when their use adds comfort.

When the eyes require different lenses for near and distant vision, we supply bifocals with an invisible dividing line, so that only a single pair of glasses is needed.

We have all kinds of specialties in frames and nose pieces, shell frames, special designs and shapes to suit and fit all requirements.
