

SECOND GAME ON TOMORROW

HIGH SCHOOL AND SHOPMEN WILL CONTEST.

Exciting Contest is Expected When Second Group Play.

SPECIAL TRAIN TO BALL-GAME

Next Monday evening the M. I. A. will run a special train to Union when the local champs play the Union club team.

Tomorrow night the second chapter in the history of the Amateur Basketball league in this city will be scrolled at the high school gymnasium.

The high school five has been in one game this year and demonstrated that the old pep is there still, although new men are in the team.

Strong letters of protest against passage of the new game code law, by which the moneys received from licenses will be thrown into the general fund of the state and the game department be financed with a lump sum from the legislature, have been sent to Union county legislators at Salem.

Pendleton, Jan. 18.—Aroused by the bill introduced in the legislature last week to abolish the state fish and game commission, members of the Umatilla County Fish & Game association and other sport lovers held a mass meeting in this city yesterday afternoon and voted unanimously to use every influence in their power to block the proposed legislation.

The abolishment of the commission plan of protecting and propagating the wild game of the state would be a step backward in the opinion of the local sportsmen. After much discussion they voted to present their protest to the members of the Umatilla county delegation and other legislators with whom individual members and acquaintances and urge them to retain the present system.

MIYAKE AFTER A MATCH.

Japanese Jujitsu Expert Will Wrestle Anybody.

Taro Miyake, who calls himself the jujitsu champion of the world, is in New York and has challenged anybody to a contest, and he offers to make a side bet of any sum that the other fellow wants to wager.

Miyake besides being a jujitsu expert has a knowledge of catch-as-catch-can wrestling, and he includes this form of endeavor in his challenge. He recently took on George Botner, agreeing to throw the middleweight champion three times in an hour.

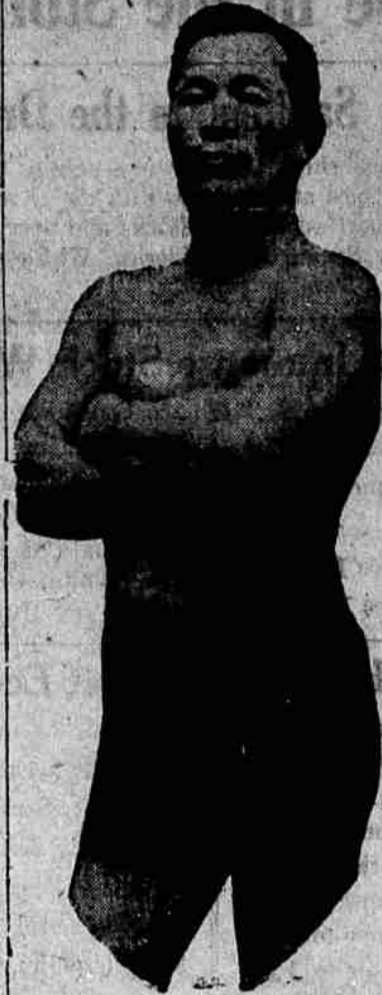

Photo by American Press Association.

TARO MIYAKE, JUJITSU EXPERT.

Botner, who has no equal as a scientific wrestler, got the fourth fall of his third of a century as a wrestler when Miyake threw him in a trifle more than twenty-two minutes. Then Botner surprised his antagonist by assuming the offensive, and after eight minutes he threw the sturdy Jap, thus winning the match.

It was easy to see that Miyake's knowledge of wrestling did not put him in Botner's class. When Botner got his famous scissors hold on the Jap the result was inevitable, for no man, no matter what his strength or weight, has ever escaped a fall when Botner got that hold.

With more knowledge of catch-as-catch-can wrestling—the knowledge that will come with experience—Miyake will be a formidable rival for the best wrestlers in the game.

Cost \$38.60 to Cross Continent.

A trip across the continent attended by many exciting experiences, has just been completed in Los Angeles by G. W. and J. W. Logan of Tiffin, O., who drove a small car through to the coast in the face of the worst weather and road conditions of the year.

PRIZES HUNG UP FOR BIRDS

VALUABLE GIFTS TO BE DISTRIBUTED.

Five Regular and One Special Reward Provided For.

Many elegant prizes lie in wait in the office of Secretary Wenzel to be carried off next January by those who give close attention to slaying certain carnivorous birds—magpies and crows. During the past years it has been the practice of a few to give handsome prizes for those who slew the greatest number of such birds, but the coming year the rewards are to be all the greater.

Following are the various prizes which have been hung up for 1915:

First prize—Automatic shell vest. Presented by W. H. Bohnenkamp & Co.

Second prize—Dickinson hunting knife and sheath—Presented by F. L. Lilly, hardware.

Third prize—Seventy-five Winchester shotgun shells, 12 gauge—Presented by The Golden Rule Co.

Fourth prize—Five hundred 22 caliber shells (shorts)—Presented by T. L. Fisher, Novelty Store.

Fifth prize—Franco Electric Flash Light—Presented by Bert Hughes, sporting goods.

Special prize—One box of cigars for magpie with longest beak. Given by P. A. Foley.

ELECTRIC LIGHTS WERE INVENTED TO SUPPLY

A NECESSITY. ALL OTHER METHODS OF CREAT-

ING ARTIFICIAL light were unsatisfactory. Candles

were dim and unreliable; gas, dirty and dangerous; kero-

sent, dull, smoky, odorless and also dangerous to health

and property. When electric lights were introduced there

was but one drawback. They cost considerably more than

other lights. This objection has been overcome and elec-

tric lights are now the most economical as well as the

most satisfactory light.
