

# LOCAL CLOVER SEED GOOD

That Union county soil is admirably adapted to the growing of clover and that Union county clover seed can face competition from any quarter of the globe and hold its own, has been demonstrated in a series of interesting experiments recently concluded by Paddock brothers of Union, cooperating with County Agriculturist Cate. The experiment in the production of clover and clover seed was conducted on a plot of seven acres and from this plot were produced 22 acres of the very best kind of clover hay, and 2380 pounds of clover seed. Figuring the hay at \$7.00 per ton and the seed at 15 cents a pound the total income from the seven acres amounts to \$558. An itemized statement of the expenses connected with the experi-

ment including cutting, hauling, irrigating, threshing, sacks and all other items of expense amount to \$123, leaving a net income of \$435.25 of clear profit or \$63.30 per acre. But this part of the experiment, while proving the fact that clover can be successfully grown in this county, is not the most interesting feature of the experiment for a test of the seed at the college at Corvallis develops a test of 99.47 pure clover seed with the balance of the seed alfalfa which would not prove at all objectionable. The report suggests that if the seed is placed on the market it should be labeled "Oregon Standard Purity".

## TEACHER-MOTHERS WIN IN NEW YORK SCHOOLS.

MRS. LORA M. WAGNER

MRS. PLIXOTTO

MRS. BEESLOW

After a fight lasting several years it has finally been decided in New York that it is not illegal for a married teacher to become a mother. The New York City Board of Education decided it was, and as a result many women were frightened into resigning from the public schools.

But a dozen or more held out. Some of them took time off on pretexts of various kinds, but others who demanded time off without subterfuge were dismissed by the board. The women shown in these photographs are some of the teacher-mothers who will be restored to their positions in the schools with back pay.

### Essay on the Waist Line.

The waist line is an imaginary line around Rosie. For many years it lay in a dormant state. So quiet and demure it was that Rosie herself hardly knew of its existence. Of late, however, the waist line has departed itself in a reckless and shocking manner. It has twisted itself into curious shapes. It has soared to Rosie's shoulders and swooped to her feet. It has coyly hidden in folds of bouffant drapery, suddenly to reappear and spread itself all over creation. We predict that such frivolous conduct on the part of the waist line, this self appointed architect can bring only sorrow and degradation. In fact we shall not be one bit surprised if it is forced to spend its old age in the bread line.—Kansan Industrialist.

## CERTAIN CARD GAMES WORRY

FLIRTATIONS WITH GAMBLING SAID TO EXIST.

Freeze-out for Cigars is Said to Be Guise Worked by Gamblers.

Certain poolroom and sign store cardrooms are in bad repute with the police who promise to take drastic means to put a stop to what Chief of Police Orsi says is flirtation with gambling. These flirtations originate, the chief says, wherever freeze-out is played and under the guise of playing freeze-out for cigars, chips are used, the police say, in many instances as cash value. "Pinochle and solo tables do not violate the gambling rules as the proprietors look to their own interests and harmless amusement, with the lesser paying for cigars or merchandise, is the rule in such places. This dicky business is what is bothering us, and unless it is stopped somebody's card tables are going to go out of business," said the chief today.

### FORMER BASEBALL WAR.

Twenty-five Survivors Are Still in the Game.

Although but twenty-five of the 330 ball players who figured in the American and National league races of 1902, the last year of the American league baseball war, still remain in the big arena, a team composed of these veterans, all of whom have been in the game upward of fourteen seasons, would be capable of holding its own with any that might be selected today. All of these players are far above the average in intelligence, which accounts for their remaining in the game so long, are excellent fielders, great batsmen and, with one or two exceptions, grand base runners.

This all star team would line up as follows:

Mathewson, Plank and Hess, pitchers; Bresnahan and Deolin, catchers; Lafaje, first base; Evers, second base; Wagner, shortstop; Wallace, third base; Callahan, left field; Leach, center field; Crawford, right field.

The manager for this team could be selected from among John McGraw, Fielder Jones, Clarke Griffith, Frank Chance, Hugh Jennings, Wilbert Robinson and Fred Clarke, as all of these former stars were in the game in 1902. Griffith and Mettraw being pilots as now.
