**Tonic of Outdoor Life.** Outdoor life, contact with the earth, the digging, the wheeling of a barrow, even the quiet contemplation of unfolding animal and plant life, are better tonics and restorers than any man has devised. There was one gardener who did wonders for himself at the very prosaic task of digging holes. Through a period of three years he dug 400 holes for trees and shrubs. He was three times as strong, he asserted, at the expiration of that time than ever before, and he weighed twenty pounds more. The improvement in his attitude toward life was too great to estimate. During all that time he had been working in the open air he had "found"—although this particular gardener was no poet, and didn't express it in just this fashion—"tonques in trees, books in the running brooks, sermons in stones and good in everything," including himself.—New York Post.

**Didn't Watch His Watch.** In a subway crowd not long ago a New York man was "touched" for his watch. The watch was not intrinsically valuable, but the New York man wanted it back for sentimental reasons and inserted divers advertisements in the papers offering \$50 for the return of the watch and "no questions asked." The "dip" who had "lifted" the watch saw the advertisements and concluded to take the \$50. He called on the New York man, handed him the timepiece and demanded the reward. The owner of the watch was only too happy to give it to him. After examining the watch he returned it to his pocket and handed over five ten-dollar bills. The "dip" pocketed the money and departed. There was little said. A few minutes later the New York man reached for his watch. But it was gone.—New York Tribune

**Restfulness of Flowers.** Flowers in the home divert the mind and rest the weary eyes of the housewife and mother. A bouquet in the sickroom aids in keeping the mind off the disease and often starts the brain on a new channel of thought that puts the patient on the road to recovery. Flowers in the office or on the desk of the weary clerk or stenographer will produce such a telling effect that by actual comparison more work is accomplished by those whose eyes and brains are rested by the presence of those gifts from nature. Artists visit the parks and gardens to study the flowers, and their orbs are wonderfully toned up by the refreshing glimpses of the colors in nature, and no artist has ever been successful who does not study colors in the beautiful flowers.—Philadelphia Ledger.

**Corrected.** Miss Kitty—Before you were married, Mrs. Blunt, did your husband bring you many flowers? Mrs. Blunt—I didn't have any husband before I was married, dear.

**His Hint.** Hunter—Are you ever shot at by mistake for a deer? Guide (impressively)—I dunno. They never live to tell what they shot at me for.—Exchange.

# INCOME TAX TIME IS HERE

### COLLECTOR WARNS PEOPLE TO PAY EARLY.

#### Heavy Penalties in Store for Those Who Fail to Remit.

Milton A. Miller, collector of internal revenue at Portland, has sent out instructions and warning to income taxpayers of La Grande to keep the annual fees in mind. In his letters to people in this city, he says: Returns of annual net income for the income tax for individuals and corporations making their returns of annual net income based on the calendar year, are due to be filed on or before the 1st day of March, and failure to file such return on or before that date will subject the delinquent taxpayer to an additional tax of fifty per cent. and liability to heavy penalties provided by law. All taxpayers are urged to file his or her returns at the earliest possible date, and not to wait until the last day when, through some inadvertence or oversight, he or they may fail to file return and thus be subject to the additional taxes and penalties.

The early filing of returns is most earnestly requested so that the same may be dealt with in a more prompt and satisfactory manner, and questions arising can be readily adjusted, affording the Internal Revenue office time in which to do so.

With-holding agents should be particular to ascertain their duties under the Income Tax Law, especially the fact that persons against whom tax has been withheld have the right under the law to file form 1008 with them not later than thirty days prior to March 1st, 1915, and that therefore, the annual returns of the with-holding agents should not be made until after that date.

Information in connection herewith will be gladly and promptly given, upon application therefor either in writing or in response to personal inquiry at the Internal Revenue office, and it is most earnestly requested that returns be filed or information asked as early as possible so that more careful attention may be given to these details, thus avoiding any questions arising upon final expiring of the returns at Washington, D. C.

Remittances to the government for payment of taxes should be in the form of money order, bank draft or certified check. Collectors have specific instructions not to accept personal checks, unless marked by the bank on which they are drawn, and a departure from such instructions is a violation of the regulations governing the department.

### Pert Personals.

Now he is Governor Goethals, but whatever his title he is boss.—St. Louis Republic.

A \$5,000 a night Caruso will have no uncertain voice in the finances of the country.—Atlanta Constitution.

If Andy Carnegie's peace movements don't make more rapid headway he may conclude to build a navy of his own.—Washington Post.

If it is true that Mr. Edison finds it impossible to enjoy his holidays he is not half as clever a man as we had supposed.—Charleston News and Courier.

### Wireless Whispers.

Over the different seas of the globe 1,200 mercantile vessels provided with wireless telegraphy are navigating. The government of Ecuador will establish seven wireless stations and equip three war vessels with wireless. High speed wireless tests recently held at Clifden (England) station are said to have resulted in 145 words per minute. Air men flying many hundreds of feet in the air can now communicate with observers on terra firma by means of wireless.

### AERIAL PANTRIES.

**How the Meat Supply is Kept Safe in One Alaskan Town.**

"Very patriotic lot of people live here, I see." is the remark made by almost every newcomer to the frontier town of Knik, Alaska, at the head of Cook's Inlet, when they see that almost every house is supplied with a flagpole. And they are right about the patriotism, but it just happens that the poles are not for flags, but for meat. Knik is on the trail to Iditarod and the Kuskokwim valley, and in the summer the sled dogs and the flies are so thick that it is impossible to keep meat in ordinary caches near the ground. There is no butcher shop in Knik and the only fresh meat is moose or Alaska sheep brought in by the hunters. It's very handy for the housewives of Knik to have the meat supply of the town up in the air. If hubby has poor luck with his gun and the supply runs out, all she has to do is to go to the door, pick out her neighbor who has the largest supply on hand and go borrow a steak or two. The meat is fastened securely to a rope and it is run up to the top of the pole very much the same as a flag would be.—Milwaukee Journal.

### SO DECEPTIVE.

Many La Grande People Fail to Realize the Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing. Learn the cause—then cure it. Possibly it's weak kidneys. That's why Doan's Kidney Pills are so effective. We present the following case as proof:

Mrs. S. E. Wall, Union, Ore., says: "My kidneys got so weak that my system seemed to be running down. I had great confidence in Doan's Kidney Pills, and after using them for a while, I was cured. Doan's Kidney Pills have benefited me several times since, when my kidneys have given out. I am in the best of health now, and give Doan's Kidney Pills the credit."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wall had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

### Our Own Grinding Plant

The mechanical work must be equally as careful as the examination itself. The prescription must be filled with Scientific Precision. This is done in our own Laboratory on the Premises, where we grind all of our own lenses. We guarantee our lenses to be absolutely correct, scientifically and mechanically.

**Fitting and Adjusting.** The glasses must be made up in frames or mountings that will be suited to each individual case. The appearance of the glasses, when worn, must be considered. We provide mountings to harmonize with the features and give handsome and stylish effects.

**Specialties.** We prescribe toric glasses when their use adds comfort. When the eyes require different lenses for near and distant vision, we supply bifocals with an invisible dividing line, so that only a single pair of glasses is needed. We have all kinds of specialties in frames and nose pieces, shell frames, special designs and shapes to suit and fit all requirements. J. H. PEARE & SON, La Grande's Leading Jewelers and Optometrists
