

## Gripp Will Get You If You Don't Watch Out

The symptoms of gripe and similar ailments come after the disease has begun to develop, so a remedy should be used at once to prevent further development. Our

Blue Mountain Cold Cure if promptly used, will stop gripe and colds in the start. This remedy should be kept on hand for use when needed.

Robert Withycombe, of the Union Experimental Station, passed through La Grande last evening on a cattle train on his way to see the governor of the state, who happens to be Bob's father. The reason for the trip on the cattle train by one of the gubernatorial family, is explained by Bob as follows: "You see Union ships a lot of livestock and these two carloads of cattle needed someone to handle the prod pole and hook them. I was the man selected for this important duty and in Union we have a binding oath that no man can say no to any duty thrust upon him. And besides I wanted to see the governor and the folks at home."
