SUNDAY AMONG THE CHURCHES

John E. Crymes, of the American Sunday School Union, recently assisted a series of meetings at Pine Grove, nine miles from Elgin, in which ten conversions resulted, all of whom will unite with the various Elgin churches.

Although the snow was still deep at Pine Grove, the services were well attended, more than 60 persons being present at different times.

A splendid young people's society was organized last Sunday evening. A mid-week prayer service was also established, which met for the first

time Thursday evening. Pine Grove has had a good Sunday School for some time past.

Mr. Crymes left this morning for Divide, 25 miles east of Joseph, where he goes to hold another series of meetings.

"That Chum of Yours."

The unique subject, "That Chum of Yours" will be the theme at the Baptist church Sunday evening. This is the third in a series of addresses which Rev. Close is giving to young people on Sunday evenings.

NATURE sometimes makes perfect things, but "processing" spoils 'em. A good-natured boy may be "processed" into a dern fool by the wrong education—an' tobacco can be spoiled similar.

Velvet Joe

The Smoothest Smoking Tobacco, VELVET, is naturally right. Its two years' ageing simply mellows and refines its natural qualities. The secret of its "no bite" is first, right tobacco; second, right ageing. 10c tins and 5c metal-lined bags.

ELECTRIC LIGHTS WERE INVENTED TO SUPPLY A NECESSITY. ALL OTHER METHODS OF CREATING ARTIFICIAL light were unsatisfactory. Candles were dim and unreliable; gas, dirty and dangerous; kerosene, dull, smoky, odorous and also dangerous to health and property. When electric lights were introduced there was but one drawback. They cost considerably more than other lights. This objection has been overcome and electric lights are now the most economical as well as the most satisfactory light.
