

# Why Buy UNITED STATES CREAM SEPARATORS

The Interlocking Sectional Type differs vastly from the disc or any other separator construction. It is the modern product of new and better ideas and is manufactured under the latest cream separator patents. Antiquated, abandoned principles of construction have no place in its makeup.

The Interlocking U. S. is the perfected product of over twenty-five years experience in building cream separators.

It takes years of experience to develop a cream separator of highest efficiency. A large number in our factory have this experience, having made a life study of the U. S.

It is made in the United States. You can get repairs if needed.

It is safe for women and children. All the gears are completely enclosed.

When buying the U. S. you get a separator more improved and up-to-date than others, for example.

The U. S. was the first to use the oil-splash system. The U. S. oils all the gears. Imitators oil only part of the gears.

The U. S. is the first to have a Mechanical Washer. Others are spending large sums trying to invent one equally effective.

The U. S. is the first to have a non-rusting bowl chamber liner. We predict others will copy it in years to come.

The patented U. S. Interlocking Skimming device has proved a better skimmer than "disc" bowls. It would be imitated if not patented.

The U. S. adjustable neck-bearing controls the running of the bowl. Others would use it if they could, but patents prevent.

The gears revolve on the shafts and in the middle between bearings. Get a mechanic's opinion on this point.

The U. S. skims Nature's way, cream at the top, milk at the bottom. As yet we've never heard of anyone who has improved on Nature. Have you?

When a better Cream Separator is made, it will be a U. S.

Stop in and look over the new U. S. Take home a Catalog. It will stand a thorough, careful study. Investigate the U. S. before you invest.

### LA GRANDERS BEAT INDIANS

PITCHERS FROM LA GRANDE ALLOW FEW HITS

New Men in Lineup Show up Well—Manager Much Elated

La Grande's club in the Eastern Oregon league showed itself yesterday afternoon to be of much promise for it went to Elgin and trampled the Indians under foot in a practice game. When the wardance was over La Grande had the long end of a 12 to 4 score. Garrick opened for La Grande against Shelton and went four innings, allowing three scattered hits by the hard swatters at Elgin. McKinstry, former Washington state player who now carries a brakeman's stick for the O-W, finished up going five innings and miserably held Elgin to two swats. Furthermore McKinstry showed his ability as a fielder, playing third faultlessly, until called to the mound. At the willow game he, Sancy and Speed Humphreys connected for two baggers. Budd, another new man in the lineup and Stacey hit safe three times and scored two runs. He played center. Stacy left and McInnis right. Garrity held the initial bag down faultlessly and accepted many hard chances, and McInnis thinks that he can improve Garrity's batting, and if he does, has a mighty valuable player in the young star. Judging from yesterday's performance as a fielder. Speed held down second without error. Galbraith was back at short and State former pitcher, and yesterday opened as a catcher and did well with it. Manager McInnis is much pleased with the looks of the team and is ready for the contest which officially opens the league next Sunday.

The score:

A considerable gallery Saturday evening got all worked up with excitement while the 5:15 businessmen's class soundly trounced the 7:15 class at the Y. M. C. A. in volley ball. Three straight out of five were taken by the afternoon class, 21-10, 21-5 and 21-11. Later two practice games were played and the 5:15 aggregation, captained by F. L. Meyers took these two, 21-7, 21-13. Captain W. C. Kelley's crowd fought like trojans to stave off defeat and at many times during the evening interest was at white heat, but the winners had the edge in height, a valuable asset, and pulled

out of holes when they had to. Captain Meyers had on his side, Drahn, Graham, Larrison, Wenzel and Cochran and Close (all close to six feet specimen of the physical man) while Kelley's players included himself, Green, Rudd, Robb, Evans and Selder.

There was a game of tennis at Union Saturday last between representatives of the Union and Imbler clubs, Messrs. Waiter Cock and Fred Fox representing the Union club, and Ray and Lyle Wilson the Imbler club. Six sets were played, resulting in three points for Union and three for Imbler. A return game will be played at Imbler soon. The local club has about fifteen members—Union Republican.

Edmund Holmes, Eugene Fyke, Randall Savage and Grant Geddes were Friday night elected to captain four divisions of the Junior "A" at the Y. M. C. A. They are meeting this afternoon with the secretary to work out plans for the work of their teams. Though these plans will not be complete for some time they will cover many activities of boy life.

The O-W got away with the La Grande cups yesterday afternoon in a six-inning game, 8-2. The victors leaned against offering from the Cub pitching box viciously while 11 Cubs hit the dust at the home plate in the six innings. Batteries: O-W, Geddes and Shelton. Cubs, Chuders, Larsen, Herr and Arch Stoddard.

The Harley-Davidson, Tracy Holm, yesterday won over the Indian, "Red" Williams rider, on the Booth lane in a contest between the two machines on a straightaway course. The machines were fully equipped when the race was run, Mar.—12-19-26—April 2-9
