## EXHIBITS AT FAIR OUTLINED

### MR. MEACHAM COVERS WHOLE SHOW SPACE

Takes up Various States and Nations in Brief Form.

By WALTER MEACHAM.  
(Manager Oregon Exhibits.)

Panama Exposition Grounds, San Francisco, April 2.—(Special)—Will try this time and tell you something of the wonderful displays in the general exhibit palaces at the exposition. Will give it to you a little at a time as there is so much that is interesting and instructive that it is hardly possible to give it all at one time. To see all the things that there is to see in the various exhibit palaces, would take weeks of careful sight-seeing, but I will endeavor to give it to you in as brief a form and as thorough as my time will permit.

We will commence with the Agricultural building, which has a splendid lot of exhibits from various parts of the world.

Oregon has a space in the building of 7300 square feet in which is shown the products of the different parts of the state.

Willamette Valley has its exhibit, consisting of grains and grasses, canned fruits and vegetables; Southern Oregon is represented by the individual displays of Messrs. Sherman and Lowe. Eastern Oregon has a fine display of grains and grasses, apples,

corn and threshed grains. The booths are made of Oregon logs and attract the visitors because of their being out of the ordinary.

Massachusetts has a large space devoted to maps, pictures and statistics. Louisiana has unique display of cotton, corn, grain and grasses. Nevada has processed fruit, grains and grasses. Montana has an artistic booth showing grains and grasses, processed fruit and vegetables. Washington has a booth made of bark and show grains and grasses, processed fruit and vegetables. It also has a miniature harvest scene which is quite attractive and unique. Virginia has an attractive little display of tobacco, corn, grain and grasses and Civil war relics. Wisconsin has relief maps, statistics, grains and grasses. Idaho has an elaborate and striking display, showing the Shoshone Falls, Arrow Rock dam and irrigated farms. It has a good display of grains and grasses and vegetables.

Missouri has a costly and elaborate display of corn, grain and grasses, with monster eagle and picture of the governor worked in threshed grains.

Kansas has a striking display with sunflower decorations. Iowa has monster corn exhibit and has used an immense lot of corn in making a great Horn of Plenty. Illinois has artistic booth displaying corn, grains and grasses. New York has cheese exhibit, showing a monster cheese weighing 15,000 pounds.

The U. S. Government has an interesting exhibit of plant and animal life, illustrating different subjects with charts and models.

New Zealand has a large and attractive exhibit showing the various resources of the country. Hemp, grains and grasses, wool, woods, meats, dairy products, etc., are all

brought out in a comprehensive manner.

The exhibit from the Philippine Islands is extensive and interesting. Coconuts, hemp, rice, crude rubber, sugar and grains and grasses are all shown and the forestry exhibit is especially good, exciting the admiration and wonder of all visitors.

The Japanese exhibit is thorough and extensive and shows the products of the country in good shape. In all the exhibits that the Japanese have made, they have gone into it thoroughly and made a great showing.

China has a fine exhibit of its resources also and attracts much favorable comment.

All kinds of farm machinery are shown here. Great caterpillar traction engines and all of the various farm implements are shown and demonstrated. All of the state exhibits explained herein have cost many dollars more than the Oregon exhibit, but we doubt if they will attract any more attention or do any more good for their respective states than will the Oregon exhibit.

In the Food Products building is shown about all conceivable kinds of food and drink and you can get a sample of anything from cocoa to wine and from lady fingers to hot biscuits.

Many people throng this building looking for something free and nibble around from one booth to another trying to fool their stomachs into believing that they have had a square meal.

Demure little Jap girls, smiling colored dames, big blonde Swedes, swarthy Mexican señoritas, Hebrew damsels, Chinese chickens and other nationalities lure you on with seductive smiles into partaking of their national foods. There are many interesting

things to be seen in the building however as they make shredded wheat biscuits, puffed rice, candy and various other things in full view of the public. Like all the other buildings on the grounds it is worth a visit.

### Dog Notice.

Notice is hereby given that all dogs running at large must be muzzled from and after April 10, 1915. Muzzles must be wire or leather strap muzzles with one strap over the tip of the nose. They must be effective in preventing the dog from biting.

Told That There Was No Cure for Him.

"After suffering for over twenty years with indigestion and having

some of the best doctors here tell me there was no cure for me, I think it only right to tell you for the sake of other sufferers as well as your own satisfaction that a 25 cent bottle of

Chamberlain's Tablets not only relieved me but cured me within two months although I am a man of 65 years," writes Jul. Grobrien Houston, Texas. Obtainable everywhere.

# F. D. HAISTEN

Furniture on Easy Payments

## WHY NOT?

KC is pure. KC is healthful. It really does make lighter, nicer biscuits, cakes and pastry than the old fashioned single acting baking powders.

And you pay only a fair price for it. No baking powder should sell for more.
