WIRE TO PRESS CLUB

Observer Connected Directly With Exposition Grounds.

San Francisco, April 10.—The United Press leased wire system is today connected with the Press Building at the Panama-Pacific exposition, by a loop that puts the editorial rooms of the Evening Observer in constant communication with the fair grounds.

Over this wire the United Press reporters at the fair grounds will send reports of conventions and other news events directly to the La Grande Observer and other U. P. service users. Visiting newspaper men at the fair will be provided with United Press bulletins on the news of the world, posted in the press headquarters and in the press club.

The readers of the United Press papers will find their regular news service in evidence at the exposition, as it is published daily in the leading San Francisco papers and they may communicate with their home papers by making themselves known to the United Press representative at the press building.

Mirror-Elevator Favorite.

St. Paul, Minn. Apr. 10.—A Mirrorless elevator is never used by women when one with mirrors is available, according to an observing elevator boy. He works on an elevator, which is regularly used for freight. During rush periods, the freight elevator, exactly like the passenger elevator, except that it does not have mirrors, is used for passengers. But the women fight shy of it. The men he says never look into the mirror to straighten their ties or fluff their hair.

"Y" Member Recognized

Astoria's Y. M. C. A. building has been opened to the citizens of that enterprising community, and a La Grande man has already been recognized by the General Secretary of the new building. The local Association has received announcement of the opening exercises of the building just completed at a cost, not including equipment, of about \$30,000. Mr. W. C. Wickline, who left this city a couple of weeks ago for Warrenton, writes telling of the Astoria building and says that Mr. Harry L. Markell, General Secretary of the building had invited him to enjoy in that building the privileges to which membership in La Grande Association will entitle him all over the world.
