Drs. Darland Chiropractic Parlors

No. 4, Depot Street.

GEO. T. DARLAND MARY V. DARLAND

OUR PROFESSION IS BASED ON EXACT SCIENCE. NOT GUESS WORK, NOR IS IT NECESSARY TO CHANGE YOUR RELIGIOUS BELIEFS TO HAVE HEALTH THROUGH CHIROPRACTIC.

IS THIS THE CASE OF YOUR LITTLE BOY?

Just the nicest little boy you ever saw came to our office. He had been treated for five years with drugs and the only result was to get worse every day. The amount of mucus that passed his bowels each day was a fright. We had him two months. Result is perfectly well. He can now have as good a time as any other little boy. Ask his father and mother, Mr. and Mrs. W. T. Patten, 602 N avenue.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the **type** is shifted—not the **carriage**.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. typewriting is free from blurs and every letter in the right place.
