

### PROTECT YOUR POULTRY FROM LICE

It is more economical and humane to feed chicken lice on a reliable louse destroyer than it is to feed your chickens to the lice. Lice destroy the vitality of fowls and make them easier subjects for cholera and other diseases.

**Conkey's Louse Destroyer** is harmless to chickens, but it is guaranteed to exterminate lice. Poultry should be in perfect condition at this season, provided they are free from pests.

We are agents for Conkey's Poultry Foods and Remedies.

scalps had been presented at the office of County Clerk Saling and a total of \$6013 had been paid out in bounty. Of this amount under the new law, the state pays one half and the county one half. During the last weeks in March the bounty money amounted to \$472. In April more than 1200 scalps were brought in, the warrants issued for them totaling \$3636. So far this month 301 scalps have been brought in, the bounty money totaling \$903. The three dollar bounty has had a similar effect in other counties where coyotes are numerous. Dan P. Smythe of this city declares that upon the Smythe Bros. range alone near Arlington, between 400 and 500 coyotes have been killed since the emergency law passed by the last legislature went into effect.
