Clint Van Fleet High Man with Baldwin Best for Baker.

La Granders tasted the nectar of revenge Saturday night when the All-stars defeated the Baker team, once victors, on the club alleys by a safe margin. It was a late-evening affair but interesting though neither visitors nor home team, outside of Clint Van Fleet, was able to roll for an average of over 200, for the three games. Baldwin of Baker was the best visitor with an average of 188. Some of the high scores in lone frames, of special merit, were Roesch's run of 221, Stoddard's of the same figure, Van Fleet's of 224, and several around the 190 mark. The scores made were:

La Grande	1	2	3	T

**RABBIT DRIVE GREATEST EVER HELD.**

Grand Banquet Tops Off Day on the Plains Where 2000 Jacks Die.

Never in the history of Eastern Oregon rabbit drives have La Grande sportsmen had the time they did yesterday on the Telocaset plains. About 40 from La Grande with several from outlying points, went to North Powder on the morning train and there the unstinted hospitality of the North Powder Rod & Gun club began. Teams hauled the hunters to the plains and there careful organization took place. The men, considerably over 100 in all, marched as skirmishers, keeping a straight line. The constant rattle of shotgun was not only deafening but such as to lay low 2000 rabbits. Men on horseback and drivers with wagons followed the bombardment line picking up some of the choicest victims. About 1000 rabbits were brought back to North Powder. At noon, coffee, sandwiches, pie and a lot of other good things to eat were served at the expense of the host club on the field.

**Banquet Some Banquet.**

But to top this off, the great big treat of the day was the banquet served at night by the North Powder sportsmen to the guests. Served in style, and odds of it, the tired and hungry hunters ate up chicken, mince pies, gravy, salads, sauces and a line of food fit for kings. After the elaborate banquet—it wasn't a little feed it was a great big banquet, if you please—the La Granders were treated to a movie party.

Around the street corners today the big day on the plains and the big, whole-hearted hospitality of North Powder are still the main topics.

**MANY CHILDREN HAVE WORMS**

Worms are a common childhood ailment. They make children restless nervous and irritable, besides robbing the body and mind of proper nourishment. Watch your child. Examine the stools and at first signs of worms give your child a treatment of Kiskapoo Worm Killer. They kill the worms, act as a laxative and expel the worms and poisonous waste. Tone the system and help restore your child's health and happy disposition. Only 25c at your Druggist.

**Cough Medicine for Children**  
Mrs. Hugh Cook, Scottsville, N. Y. says:

"About 5 years ago when we were living in Garbutt, N. Y., I doctored two of my children suffering from colds with Chamberlain's Cough Remedy and found it just as represented in every way. It promptly checked their coughing and cured their colds quicker than anything I ever used." Obtainable everywhere.

**WAR UPON PAIN**

Pain is a visitor to every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal. writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise next morning the stiffness had almost disappeared, four hours after the second application I was as good as new."

**Danger Signal**

If the fire bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for the persistent cough that so often follows a bad cold or attack of the grip. Mrs. Thomas Beeching, Andrews, Ind., writes: "During the winter my husband takes cold easily and coughs and coughs. Chamberlain's Cough Remedy is the best medicine

**Too Much Water in Oysters.**

Baker, Dec. 11.—Not more than 15 per cent of liquid is allowed in oysters retailed to customers, according to a new Oregon statute, but Percy Miller, an employe of the Smith Meat market was not aware of this fact, according to a complaint filed by District Sealer of Weights and Measures Yeager, who alleges that the liquid proportion was excessive. Miller was brought before Justice of the Peace Hubbard this afternoon, but denied that the oysters were not sold in accordance with the law. His hearing has not been set.

A. B. Hoggett, an employe of the Baker Packing Co., was hailed into justice court this morning charged with selling oysters from a short measure. He procured a measure meeting with Mr. Yeager's approval, paid \$4.50 costs and the case was continued indefinitely.

**ORIGIN OF THE "YANKS."**

Joseph Resident Explains How Lake Fish Were Planted.

John Hayes, the Joseph pioneer, thinks he may know something of the origin of the "yanks," the peculiar fish for which the lake is famous, says the Record-Chief. If he could have a little talk with S. A. Heckathorn, founder and first publisher of the Wallowa Chief, Mr. Hayes feels he might settle the point definitely.

About 30 years ago, before Mr. Hayes was married, the office of the Chief in Joseph was a favorite loafing place. He used to help Mr. Heckathorn fold the papers and assisted in other jobs within his ability. So he and the pioneer editor became good friends.

One day Mr. Heckathorn received in a glass jar half a dozen or so live fish of a new variety. They were kept in the printing office for a few days and then the two men concluded they would take them to the lake and release them. Mr. Hayes then forgot the whole matter.

Perhaps ten years later the "yanks" began to appear in the lake. They had been unknown earlier, and in fact never were found in numbers to attract notice until about fifteen years ago. As Mr. Hayes came to the county and to Joseph in 1879 he is fully qualified to give testimony on fishing in the lake in early days, and to tell when the "yanks" first became numerous. After the new fish had made themselves known, Mr. Hayes recalled those few specimens he and Mr. Heckathorn had turned into the lake so many years before, and he still thinks it altogether possible they may have been the first stock from which the present numerous progeny have been produced.

**A Public Library**

A house where dead men live and give counsel to the living who came to them humbly—  
The wise dead, the mighty dead, those who loved, those who hated, they are all grouped together.  
They are all in this house, and the spell of silence is upon them.  
Only when one of their own kind comes, awesome-eyed and true—only then is the ban lifted, and they talk with him mightily as only great souls can talk with great souls.  
As only kinsmen talk with kinsmen.—Mary Carolyn Davies, in the Survey

**Fat Man Has Chance.**

"The inconvenience of the driver has to a great extent been eliminated by the installation of adjustable individual front seats," state A. G. Seiberling, general manager of the Haynes Automobile company, Kokomo, Indiana.

"The great problem of the automobile manufacturer has been until recently, the arrangement of the front seats, so that convenience and comfort should be accorded the driver, who in most cases is not considered. This has been solved to a great extent by the installation of the adjustable individual front seats. Now the man whose anatomical construction is a trifle oversize can enjoy driving as well as the thin or average sized man, by simply adjusting a little bolt and sliding the seat back

**Name Registrar in Rural Precincts**

Kelso, Wash., Dec. 9.—The county commissioners at their session this week took up the appointment of a registrar in each precinct outside of the corporate limits of cities. Under the terms of the act passed by the last legislature, which takes effect after the first of the year, every voter in the state must be registered before voting. After once registered, provided the voter does not change residence, it will not be necessary to register again for four years, but every change of residence requires the voter to re-register; also if the voter fails to vote at any election he must re-register. The registrars will be named in each precinct for the accommodation of the rural voters.

giving plenty of body room and incidentally more comfort. "Changing of seats between the passengers in the rear seat with the front seat passenger is made possible by this division between seats without the bother and inconvenience of leaving the car. "The front seat passenger is also accorded more comfort, being removed from the interference of gear shift. "In the working of the one-man top this opening becomes a convenience in putting up the top, making it unnecessary to climb over the seats. "Added space is also gained, making it possible to carry a suit-case or other luggage in the opening between the seats."
