WOOL BOOM ANTICIPATED

WHEN WAR IS OVER PRICES
WILL GO UP.

Sheep Men's Meetings at Baker Hear
Expert's Address.

Baker, Dec. 16.—A boom in wool when the war is over, particularly in fine grade merino, was predicted this afternoon by W. T. Ritch, speaking in the Commercial club rooms at the first of a series of sheep men's meetings.

"The war has cut off practically all the mills in France, and all but one mill town in England, where finer fabrics are manufactured, and still Australian merino is selling for 41 1-2 cents in the grease. It is an indication of what American sheep men can do by proper breeding, and by learning to prepare their clips in the right manner for market, when the normal demand in wool is restored," said Mr. Ritch.

Mr. Ritch gave the untoward influence of politics and adverse legislation, as responsible for the slump in the wool industry in America, and mentioned that in the last year the sheep population of the world has decreased \$50,000,000.

Three meetings will be held tomorrow in the Commercial club rooms, one at 10 o'clock in the morning, one at 7:30 o'clock in the evening.

Although Mr. Ritch considers the subjects of cross breeding for wool production and of construction and management of modern shearing sheds the most important, he has prepared a list of topics from which he will allow those attending to make their choice.
