INSURANCE WHY DO YOU USE IT? You insure because you want to relieve yourself of a heavy and uncertain liability. The risk and uncertainty is assumed by a financial company that operates on a large scale that by the laws of average makes the individual uncertainty become a definite quantity. WHAT INSURANCE IS SAFEST? Insurance in an old-line corporation is by far the safest and best, and in the long run the cheapest. WHY? 1st, because they have large securities and capital guaranteed by the government; 2nd, they write such an extensive amount of insurance that the law of averages removes the danger of a few large losses upsetting the company, a menace always hovering over small companies; 3rd, an old-line company completely assumes your risk, while if you insure in a mutual company or society you still carry a percentage of your own risk and assume the same percentage of all the risks insured by the company and automatically you become liable as a member of a concern over whose operations you have practically no control. DOES IT PAY? In exchange for a certain payment the stock company entirely assumes your liability of loss for a definite amount. If you suffer a loss, of course it pays to have insurance. Still you do not want a loss even if you are insured. But you protect yourself as far as possible against loss from an uncertain though probable cause, by paying a small and certain amount. By so doing you relieve your resources from sudden strains, and free your capital for active business or living uses. LET US WRITE YOUR INSURANCE. Whether it is FIRE, PLATE GLASS, AUTO, LIFE, ACCIDENT, AND HEALTH, BONDS or any other form of INSURANCE the above applies. We have strong companies, we write on equitable rates, we give prompt attention, and offer reliable and experienced services. GEORGE HUNTINGTON CURREY, Manager Insurance Department. Geo. H. Currey HE WHO MOVES REAL ESTATE 108 Elm Street La Grande, Oregon. Opposite Y. M. C. A. Phone, Black 2001.
