

Winter or Summer

**UNITED STATES CREAM SEPARATOR**  
"Is Always on the Job"

It's at the two extremes in weather when a cheap or old style separator will get on a fellow's "nerves", if anything will. Below zero or above ninety will "spoil the health" of any Cream Separator that I know anything about—except the United States Cream Separator!

**FORTIFIED AGAINST EXTREMES OF TEMPERATURE**

<p><i>When it is Winter</i></p> <p>When you are using a U. S. Cream Separator you don't have to heat a kettle of water to start the skimming. It works cold.</p> <p>When the oil in other separators has clogged or frozen up, the U. S. Separator, with no links, bends, or goose necks, in its oil tube,—is running smoothly and silently, perfectly lubricated.</p> <p>When every liquid is freezing solid, you don't have to worry about the bowl of the U. S. Separator being damaged by neglect. It empties itself automatically—always!</p> <p>When the gas engine "dies" if you are using power, the U. S. has a hand crank on the other side, and you can "go to it!"</p>	<p><i>When it is Summer</i></p> <p>When the cream is skimmed by a U. S. Separator, it keeps longer, for its the first and only separator remarkably fortified in sanitary ways from top to bottom. Bacteria are "up against it" like flies in January.</p> <p>When other separators get "vile" the U. S. is sweet and clean, with no milk drip on the frame, or in the gear case, or in the iron bowl chamber. The removable sanitary liner prevents.</p> <p>When ordinary separators are turning the new batch sour, with bowl left full from the previous run, the U. S. is starting fresh and dry, the bowl having drained itself without attention.</p> <p>When washing-up time comes, there are fewer parts to clean. With the mechanical washer U. S. users are through in one-third the time. Time in summer is especially valuable.</p>
--	---

*Every Season is "Open Season" for the U. S.*

Do you wonder now that I will never rest easy until all my dairy friends have the U. S.? I am selling satisfaction and will not try to build up business on any other basis.

### HERES NEW VIGOR FOR OVERWORKED STOMACHS

Newlin's Drug Co., the popular druggists, have been in the drug business long enough to have their own opinion of the best way of selling medicines. They say the plan adopted by Mi-o-na, the great dyspepsia remedy, is the fairest they have ever heard of. They don't believe that a

medicines ought to be paid for unless it does the user some good. And Mi-o-na is sold under a positive guarantee to relieve dyspepsia or to refund the money. You simply leave 50 cents on deposit with them and if, after you have used the box of Mi-o-na you decide that it has done you no good, all you have to do is to tell them so and they will return your money.

Hundreds of people have been relieved of stomach agonies by using this remarkable remedy. It is not simply a food digester; it is a medicine that puts all of the digestive organs into normal condition and gives ruddy, glowing, vigorous health. A change for the better will be seen after the first few doses of Mi-o-na, and its continued use will soon give the power to eat anything at any time and not suffer distress afterward. Use Mi-o-na and see how much more there is in life.—Adv.

**Capital and Labor Disagree.**

Washington, Jan. 13.—Issue No. 1 on the program for congressional legislation of the American Federation of Labor and other labor interests, is a resolution for the printing of the reports and testimony of the

Federal Commission on Industrial Relations. The report is not popular with some people. It paints a picture of industrial exploitation and of injustice to workers which many employers say isn't true. They say Chairman Frank P. Walsh used the \$450,000 appropriated for the securing of these facts, for prosecuting "the men who built up the country."

Labor declares the report furnishes the only fair record of the exploitation it has suffered. The report has been much sought. Thousands of letters and telegrams have reached congressmen asking for copies. The available supply was exhausted months ago.

**Traveling Eats Up Diplomats' Pay.**

Washington, Jan. 12.—Traveling abroad in these troublous times is no joke, especially for American diplomatic agents at their present rate of pay. Secretary McAdoo reported to Congress in his estimate of expenditures. In many cases consuls have been forced to travel by wagon and horseback, with constant delays at junction points. McAdoo declares they are forced to pay large amounts out of their own pockets above the 5 cents a mile allowed by law.
