2ND SEMESTER NOW AT HAND

EXAMINATIONS BEGIN NEXT WEEK IN HIGH SCHOOL.

Personal Mention and News Notes From School Circles.

Grace Boswell, who has been absent for some time owing to the death of her father at Minam, returned to school Monday.

Gladys Currey who was operated upon for appendicitis some time ago, visited the school Monday. She expects to re-enter school at the beginning of the second semester.

The semester examinations will commence January 18th and continue throughout the week. The second semester will begin the following week.

The second semester freshmen will enter the 17th. They are about twenty in number and their classes will probably be taken by Mr. Olsan and Mr. Girdler until after the examinations.

The fourth number of the lyceum course, "The Servant in the House," will be given in the high school auditorium, Saturday, Jan. 15.

A new student, James Carter, has been enrolled this week.

The new program has been completed and students who wish to do so may register this week.

Fifteen new books and four magazines have been added to the high school library. The latter are: Current Opinion, Popular Mechanics, Independent and the Outlook. Others should have come with the order in November but were delayed on account of the slide in the Panama Canal.

The Economics class are required to hand in by the 17th, themes of not less than three thousand words. The subjects chosen by the pupils are: Tariff History of the U. S., The U. S. Regional Banks, The Growth of Monopolies in the U. S., The Immigration Question, The Single Tax, A History of the Bank of the U. S., The Conservation of National Resources and The Evolution of Agriculture.

'CYCLONE' IS ONLY ZEPHYR Representative Davis, of Texas, Disappoints Washington.

Oregonian News Bureau, Washington, Jan. 12.—After listening to "Cyclone Davis," the new Texas Representative, for one long, dreary hour, the house of Representatives has concluded that the "Texas Cyclone" merely is a zephyr. His constituents may look upon him as a wit and a freer, but he gave the House little evidence of this.

To cinch his hold on the distinction of being the freak member, "Cyclone" Davis dresses the part. Tall and gaunt, he makes himself the more conspicuous by spurning the shirt and collar of ordinary dress. Instead, beneath his long, black coat, he wears a somber gray sweater, which does service for shirt, collar and tie.

The general verdict is that "Cyclone" Davis looks the part, but that he is not able to talk up to his reputation.

BEEKEEPERS WILL MEET. Program for Meeting at Chehalis is Arranged.

Chehalis, Wash., Jan. 12.—(Special)—The program for the meeting of beekeepers of the Pacific Northwest, which will be held in Chehalis January 21 and 22, has been arranged and some interesting papers and discussions are promised. It is expected that there will be a large attendance. The program will open Friday afternoon with an address by A. E. Richie, of Chehalis. Following the opening papers on various problems faced by the beekeepers will be read by experts from various parts of the state.

No cure no pay. 50c at your Druggist.

SNOW IN UMATILLA Heaviest Fall All Over County Known in Many Years

The Pendleton Tribune quotes Chief of Police Tom Gurdane who went on the police force in 1896 to the effect that this is the greatest snow in Umatilla county since that time.

Theodore Howard says it is the greatest snow since a long time ago but as he can remember back farther than Chief Gurdane could possibly be expected to, he probably will be entitled to the honors.

But anyway it is a great snow, the greatest snow that many of Pendleton's present day residents can remember, for like the jackal they did not cross the plains in '52 and therefore cannot say "Now, I remember back in the winter of '78 there was

such a snow that Lot Livermore and S. L. Morse had to turn carpenters in the building of step ladders so that people who were in their homes could get out and those who were out late that night could get into their homes. It was such a snow that the old court house was only a wreath of smoke and Byers' mill only a mole hill on the white surface.

Today the snow lies from 4 inches to 8 feet deep all over Umatilla county, with the exception of a few wind blows and chinook belts. All along the line of the O. W. R. & N. over the mountains the big rotary shovels are kept busy night and day bucking the ever falling frozen rain and it is a Herculean task to keep the road open.

Over the wheat field the snow lies at a depth of from 6 inches to 2 feet, the nearer the mountains and the foot hills the deeper the blanket. Even in Pendleton it is easily 4 inches deep on the level while on the hills in view from the city it is 6 inches to a foot.

The change in weather conditions is a great boon to the sick and a happiness to the overworked physicians of the city. No sooner did the snow and colder weather come than there was a perceptible falling off in cases of the grip, and an improvement in general health conditions and a very marked turn for the better. Every doctor says he is feeling the influence of the changed conditions, and people generally are profiting in many ways.

Help for Bronchial Trouble and Cough

"Foley's Honey and Tar Compound acts more like a food than a medicine." Mr. Will G. Richmond, Inglewood, Calif., says:—"I wish to recommend Foley's Honey and Tar Compound as it has greatly benefited me for bronchial trouble and cough. It acts so well in harmony with nature that it is more like a food than a medicine." Foley's Honey and Tar Compound has a wonderfully quick way of soothing and healing the raw tickling surface of the throat and bronchial tubes. It eases the tightness over the chest, raises the phlegm easily, and helps the stubborn rickling cough that is so exhausting and weakening. It is the best medicine you can buy, and better than anything you can make, for coughs, colds, spasmodic croup, whooping cough, la grippe and bronchial coughs, hoarseness, tickling throat and stuffy wheezy breathing. It contains no opiates, and is acceptable to the most sensitive stomach. \*\*\* Every user is a friend. \*\*\*

Want Ads.

YEARS AGO the crier announced the auction sale, then came the nag bills and their "hit or miss" results—today the effective way is the Want Ads—they hit the mark. That's what counts.

INSURANCE WHY DO YOU USE IT? You insure because you want to relieve yourself of a heavy and uncertain liability. The risk and uncertainty is assumed by a financial company that operates on such a large scale that the laws of average the individual uncertainty become a definite quantity. WHAT INSURANCE IS SAFEST? Insurance in an old-line corporation is by far the safest and best, and in the long run the cheapest. WHY? 1st, because they have large securities and capital guaranteed by the government; 2nd, they write such an extensive amount of insurance that the law of averages removes the danger of a few large losses upsetting the company, a menace always hovering over small companies; 3rd, an old-line company completely assumes your risk, while if you insure in a mutual company or society you still carry a percentage of your own risk and assume the same percentage of all the risks insured by the company and automatically you become liable as a member of a concern over whose operations you have practically no control. DOES IT PAY? In exchange for a certain payment the stock company entirely assumes your liability of loss for a definite amount. If you suffer a loss, of course it pays to have insurance. Still you do not want a loss even if you are insured. But you protect yourself as far as possible against loss from an uncertain though probable cause, by paying a small and certain amount. By so doing you relieve your resources from sudden strains, and free your capital for active business or living uses. LET US WRITE YOUR INSURANCE. Whether it is FIRE, PLATE GLASS, AUTO, LIFE, ACCIDENT, AND HEALTH, BONDS or any other form of INSURANCE the above applies. We have strong companies, we write on equitable rates, we give prompt attention, and offer reliable and experienced services. GEORGE HUNTINGTON CURREY, Manager Insurance Department.
