**W. H. BOHNENKAMP CO.,** Undertaking Embalming strictly modern. Day phone, Black 241 Night phone Red 3971 or Red 3952.

**J. C. HENRY—**Undertaker and Embalming; 20 years in business. Day phone, Main 62; night phones, Red 3131, Red 562, Black 3811.

**AUCTIONEER**

**ED STRINGHAM,** the Reliable Salesman. Farm and Stock Sales a specialty. Satisfaction guaranteed. Clerk books furnished free. R. F. D. No. 2. Phone Farm 1x6.

**ARCHITECT.**

**J. L. SLATER,** Architect and Superintendent. Room 21 West-Jacobson Building.

**CONTRACTOR AND BUILDER.**

**H. E. ROSKAMP,** Contractor and Builder, La Grande, Ore., Phone Red 1981.

# WHAT'S NEW AT THE MOVIES

**NEDRA AT SHERRY'S TODAY**

Edward Jose has made of this a great picture. Some of the spectacular features are a storm at sea, showing a steamship in the throes of a typhoon—a great battle scene between savage tribes in which Mr. Jose used over 2000 negroes making a most realistic fight. Entwined with it all is a most romantic love story. You have had George Barr McCutcheon's story. See it now in pictures.—Adv. 2t.

## WATER POWER BILL.

Washington, D. C., Jan. 15.—Late last Saturday the house of representatives passed the Ferris Water Power bill, which would throw open for leasing water power privileges on public lands estimated to be at least three times the amount now under development in the United States. The bill is really an administration measure in that it came originally from Secretary of the Interior Lane, who worked it up in conjunction with officials of the National Conservation association. It is estimated that in the eleven states where public lands now exist there is approximately 10,000,000 undeveloped horsepower in the streams, which under the Ferris bill will now become available for leasing for periods of fifty years, with proper provisions for renewals.

Party lines were cast aside in voting for the measure and Minority Leader James R. Mann turned out to be one of its strongest supporters. The measure was fought hard by western congressmen led by Representative Mondell of Wyoming. They insisted that leasing would delay the development of water power and favored direct grants or rights by congress. Western senators are playing a hard fight against the measure in the upper house, but the friends of the bill believe that it will be passed and become a law at this session of congress.

Broadly speaking the effect of this measure is thus described by Secretary Lane:

The failure to utilize the water-power resources is an economic waste. Coal, oil, gas and timber which could be conserved for the future or for use in localities where power is not available are now being consumed in places where inexhaustible water power could be developed. Lands which would produce abundant crops under irrigation lie arid and unproductive because of the failure to develop hydro-electric power, which would pump water to them. The nitrates in the atmosphere, a source of wealth and a means of providing an available supply of necessary materials for munitions of war, continue unused because of the lack of cheap and extensive power development. Available capital lies idle because it will not be hazarded upon the revocable permit law. All of these conditions and many others which might be set out justly and call for the enactment of such legislation.

The principle underlying the bill is, in brief, that the Federal Government should hold title to the water powers on public lands, which powers may be developed by private capital under such safeguards as will encourage investment while at the same time protecting the interests of the public. By the terms of the bill leases are to run for not more than fifty years; charges for service and stock and bond issues are to be controlled by Federal authority when in interstate commerce; and strict provisions relative to renewal of leases, collection of rentals, and supervision by the secretary of the interior in states which do not have public service commissions are also included.

# IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

**JAP GIRL IS FILM ADVISER**

**MARY PICKFORD LEARNS FROM ORIENTAL.**

Picture at Arcade Tonight Shows Star in a New Role.

Mary Pickford, who has been called America's sweetheart by an affectionate public because of her delightful representations of the Occidental girl in motion pictures, has been provided with John Luther Long's classic, "Madame Butterfly," as the vehicle for her first screen excursion into Orientalism. The Production is at the Arcade tonight.

So great was her interest in this forthcoming Famous Players Paramount Picture that when Miss Pickford was informed that she was to represent the screen embodiment of Cho-Cho-San, she immediately engaged a Japanese maid in order to study her mannerisms, her walk, her gestures. This little daughter of Nippon is now acting as advisor-in-chief to Miss Pickford in the matter of selecting her Oriental wardrobe and in the arrangement of her coiffure.

Little Mary is frankly apprehensive over her first digression from the type of character which she has always presented to the public.

"I feel almost as nervous about Cho-Cho-San as I did about the first picture I ever played in," said Miss Pickford. "When one has been playing a certain type of character almost exclusively the public seems to resent a departure from that particular style of impersonation. Cho-Cho-San is such a universally beloved little personage that I am particularly nervous about the Pickford version of the character which has become familiar to the public through the medium of opera, novel and play; and if it does not succeed, I shall probably commit hari-kari."

The two greatest stimulants in the world are love and debt.

# Want Ads.

**YEARS AGO** the crier announced the auction sale, then came the "naw" bills and their "hit or miss" results—today the effective way is the **Want Ads**—they hit the mark. That's what counts.

**WANTED—**Completely furnished modern six room house; close in; will lease. Call Mrs. Leiter, care Hotel Foley.

# INSURANCE

**WHY DO YOU USE IT?**

You insure because you want to relieve yourself of a heavy and uncertain liability. The risk and uncertainty is assumed by a financial company that operates on such a large scale that the laws of average become operative and make a definite quantity.

**WHAT INSURANCE IS SAFEST?**

Insurance in an old-line corporation is by far the safest and best, and in the long run the cheapest. WHY? 1st, because they have large securities and capital guaranteed by the government; 2nd, they write such an extensive amount of insurance that the law of averages removes the danger of a few large losses upsetting the company, a menace always hovering over small companies; 3rd, an old-line company completely assumes your risk, while if you insure in a mutual company or society you still carry a percentage of your own risk and assume the same percentage of all the risks insured by the company and automatically you become liable as a member of a concern over whose operations you have practically no control.

**DOES IT PAY?**

In exchange for a certain payment the stock company entirely assumes your liability of loss for a definite amount. If you suffer a loss, of course it pays to have insurance. Still you do not want a loss even if you are insured. But you protect yourself as far as possible against loss from an uncertain though probable cause, by paying a small and certain amount. By so doing you relieve your resources from sudden strains, and free your capital for active business or living uses.

**LET US WRITE YOUR INSURANCE.**

Whether it is **FIRE, PLATE GLASS, AUTO, LIFE, ACCIDENT, AND HEALTH, BONDS** or any other form of **INSURANCE** the above applies.

We have strong companies, we write on equitable rates, we give prompt attention, and offer reliable and experienced services.
