ous supplies for his crew. Logging
 work is being carried on without in-
 termission and it is expected to have
 a large supply for the spring and sum-
 mer run at the mill. The weather has
 been of the intense variety at Meach-
 am as elsewhere, the thermometer
 frequently showing twenty below and
 sometimes lower than that. Still, says
 Mr. Casey, there is little interference
 with work on account of temperature
 and the logging industry goes on just
 the same.

Frank Stubbs, the Imbler repre-
 sentative of the Shields Fruit company
 who recently returned from the east,
 was in charge of three cars of apples
 which were shipped to eastern mar-
 kets. While giving no glowing ac-
 counts of the condition of the apple
 market the shipment was quite readily
 disposed of and as soon as he returns
 from a trip to Milton Mr. Stubbs will
 ship two or three more cars from Im-
 bler for his company. This latter ship-
 ment will probably be sent out within
 a week.

Dr. George O'Conner was over from
 Union on a short visit today. He ex-
 pects to return to La Grande with his
 family as soon as the spring season
 opens.

One of the worst freezeups to come
 to the attention of La Grande people
 was discovered today by George H.
 Currey when he investigated an empty
 house belonging to the Barney Huber
 estate at 1314 Jackson. The pipe had
 burst, and the kitchen and bath
 rooms were half filled with ice. A
 genuine glacier beginning at the faucet
 spreads in fanshape to the walls and
 at no point in the room was ice
 less than 18 inches thick, ranging
 from that to about three feet. The
 bath room has about two feet of ice
 all over it.

LUTHER BURBANK DAY
 Exercises Will Be Held in Honor of
 Plant Wizard.

Salem, Or., Jan. 26.—Tuesday,
 March 7, the anniversary of the birth
 of Luther Burbank, will be observed
 with exercises in the public schools of
 the state, according to an announce-
 ment made by State Superintendent
 of Public Instruction Churchill today.
 "It seems particularly fitting in
 connection with our agricultural and
 industrial club work in the public
 schools, that we should have a Bur-
 bank day, and with proper prepara-
 tion and exercises familiarize the
 boys and girls with the man who has

accomplished so much for human
 progress," said the superintendent in
 making the announcement. "When
 farm boys learn that soil chemistry,
 horticulture, stock breeding and sim-
 ilar studies require as much bran
 activity as do electricity, law and
 medicine, and that Burbank is classed
 with such men as Edison, and has
 an income greater than most lawyers,
 they will hesitate before going to the
 cities to become flunkies for corpora-
 tions whose managers will consider
 them only as so much property."
