NEW DIRECTORY SOON
Home Independent Co. To Issue New Book

Did you ever stop to think that the Telephone directory is the business and social map of the city. If your name is not in it you are practically isolated from your friends and fellow citizens.

We are about to issue a New Directory and wish to request all our subscribers to notify us at once of any change they may wish to make in their names or addresses. To non-subscribers we would like to point out a few of the many reasons why they should at once have a telephone installed. It puts you in immediate and close touch with all your friends, it places at your disposal the best service of all the leading business men in town; in sickness it may save a dear one's life, and it is a protection against loss from fire and burglars, and all this can be had for the trifling sum of 5c per day. If you have a phone you know what a comfort and help it has been to you in the last few days, if you haven't one you have our sincere sympathies. Come and see us regarding the installing of a phone and get your name in the New Directory.

Jimmy, of the shoe shining parlors next to Sherry's theatre, had a lot of fun with the big snow banks. He made war trenches, laid mines and did a number of European stunts. One day when his trenches were in fine shape he hoisted a small French flag over them, but took it down shortly. "Why did you take down the French flag, Jimmy?" asked a reporter. "I saw Herman Roesch and two or three other Germans coming down the street," said Jimmy, "and I thought I had better use a little diplomacy."

Frank Harris is the busiest man in town. He has a spade in his hand most of the day opening ditches through the snow so that water from Adams avenue can get away. Yesterday when he was at work at the Elm street intersection Toy Young, a Chinese irrigationist watched Frank, and finally Toy remarked "One would think Mr. Harris had taken lessons in irrigation from the way he handles that water."

"A fellow from Ladd Canyon told me today that a ground squirrel was out," said Alex Cochran today. The reporter looked at Alex expecting further remarks, but none came. A few essentials in spelling and correct usage are indicated by the grades, and the work of the teacher is made more definite through the minimum requirements in these grades."

Brown, corps of engineers, United States army, acting chief of office, at Washington, D. C. "There have been several reports recently in the newspapers to the effect that the Panama Canal officials have sent out notices that the canal would be ready for all traffic Feb. 15th. A cablegram was sent to the Isthmus inquiring whether there was any truth in these reports and a reply has been received advising that the reports are without foundation and that the conditions on the Isthmus are still too unstable for the authorities there to make any prediction as to the probable date when the canal will be opened."

Frank Slater, cashier of the National bank at Canyon City, has been in La Grande the past few days. He came to visit his mother and other relatives and now his stay is prolonged until such time as the Sumpter Valley railroad is open for travel.
