FEW HOGS IN PORTLAND NOW

OFFERINGS LIGHT AND QUALITY POOR.

Cattle Change but Little Since Opening of the Week.

Portland, Feb. 15.—Today's livestock market proved to be a steady affair. Receipts were fairly good but the quality of the hogs offered was extremely poor compared with those on the market yesterday. This accounts for the fact that up to noon \$3.05 was the best price paid. If shippers expect to secure the market top for their hogs they must use more care in feeding and send in only well finished stuff. Less than 300 head were sold during the forenoon out of a total of 893 received. This should show shippers that packers do not want poor stuff.

Cattle were unchanged from yesterday. Some fine steers came in from Utah and Montana and one load was received from Dr. Owens Adair of Warrenton, widely known throughout the state for her campaigns before the legislature regarding criminals.

FRUIT

Bananas—30c and 35c dozen.
 Cocoanuts—15c each.
 Cranberries—15c quart.

Don't Scold Fretful Children.

That nervousness, fretting and restlessness is no doubt caused by worms or constipation. Instead of whipping or scolding, give your child a treatment of Kickapoo Worm Killer. Nice candy confections that kill the worms and are laxative enough to move the bowels and expel not only the worms but accumulated poisons. These poisons and worms bring on fever, make children nervous and irritable, reduce their vitality and make them victims of sickness. Get a box of Kickapoo Worm Killer today at your druggist, only 25c.

Bank House Buried In Snow

Halfway, Feb. 8.—Word has been received of a snowslide several days ago at the Red Mountain mine on Red Mountain near Cornucopia. The first report was that several had been severely injured, but phone communication established yesterday revealed that no one was hurt. The bank house at the mine was completely buried by the avalanche and the building damaged somewhat, but the occupants were unhurt although they had to be dug out.

FORD PLANS TO ADVERTISE Millions to be Spent in Advocacy of Unpreparedness

Detroit, Feb. 13.—It was announced tonight that Henry Ford is preparing to launch a country-wide campaign of newspaper and magazine advertising against the programme for huge naval and military expenditures now before Congress. It was said Mr. Ford intends soon to carry out his announced intention to devote millions of dollars to an educational campaign against war and unpreparedness, which he declared to be the first step toward actual war.

BABY WEEK POPULAR ONE

NEARLY 2000 COMMUNITIES TO OBSERVE WEEK.

Infant Welfare Propaganda Growing With Rapidity.

Washington, Feb. 15.—There are 1727 communities considering some preparation for Baby Week, according to the inquiries received by the Children's Bureau of the U. S. Department of Labor. This number does not include those of whose interest in the campaign word has come to the Bureau indirectly.

The letters about Baby Week are still coming in from every State in the Union and from every type of community, such as a Colorado settlement forty miles from a railroad, a club of women on one of the Government reclamation projects, a Montana coal mining town with a large foreign population, a southern mill village, and a club of farm women in a middle western State.

Texas has its own Baby Week slogan—Baby Health is Texas Wealth—and Mississippi has started a competition to secure a slogan for that State. North Dakota reports plans for a State-wide essay contest in the public schools. In a few State campaigns the State Federation of Women's clubs, the State University Extension Department, the State Health officials and those who are especially interested in education are all co-operating in the Baby Week campaign.

Many large cities are going to have a Baby Week. Definite plans are under way in Albany, Baltimore, Boston, Cleveland, Milwaukee, Minneapolis, Philadelphia, Richmond, San Francisco, Washington and other cities. New York had a successful Baby Week in 1914 and will probably hold another this year in the late spring.

In its suggestions for Baby Week observance the Children's Bureau lays special emphasis on the opportunity it affords for extending permanent work for infant welfare, such as infant welfare stations, visiting nursing, special nursing and instruction for prospective mothers, city inspection of milk, special work for the prevention of blindness, and little mothers' classes and home nursing instruction for school girls in the upper grades.

Illinois Hunters Shoot Ducks

Springfield, Ill., Feb. 15.—The Spring duck shooting season opened in Illinois today but the waterfowl are passing over the Sacker fields, rivers, and lakes unmolested because the Federal law prohibits the killing of ducks except in the fall.

Illinois hunters are awaiting anxiously and somewhat impatiently for the decision of the Supreme court of the United States in the Kansas case which tests the validity of the law eliminating the Spring shooting season. In Kansas the order was held unconstitutional and the government appealed to the supreme court, where it has been pending since 1914.

Panama Canal Ready to Reopen

Panama, Feb. 15.—The Panama Canal, closed to traffic for several months by big landslides in the channel, was practically ready to reopen its gates to the several hundred ships that wait at both entrances. Governor Goethals has had one of the hardest jobs clearing the canal of the slides that he has had since his actual work of completing the canal. The governor is working on plans that will prevent these landslides in the future.

Cleveland, Feb. 16.—Four model homes, offering ideals of landscaping and construction, will be erected "while you wait," during the complete building show which opened a week's exhibition here today. A typical street with real grass lawns, flowers, gardens, and sidewalks will go to make the building exhibit, intended primarily to show the various materials in building.

Can Bar Fee, Dudley and Wheeler.

University of Oregon, Eugene, Feb. 12.—With the faculty athletic committee of the State University will lie the decision whether Chester A. Fee of Pendleton, Glenn Dudley of Athena, and Glanville C. Wheeler of Eugene, are permitted to take part in conference college athletics this spring.

These are three athletes concerning whose amateur status newspaper stories have recently been numerous, the circumstances being as follows: The rules of the National Amateur Athletic Union provide that amateurs competing with or against professionals are subject to being professionalized themselves. Lyle Bibb and Carson Bigbee, University of Oregon students, signed contracts to play baseball for the Portland Pacific Coast league team this season, and accepted advance money, these two acts making them professionals. January 29 the two Bigbees, Fee, Dudley and Wheeler played basketball against Roseburg high school. Amateurs thus competed in the same team with professionals. The facts were laid before the secretary of the Pacific Northwest sub-division of the N. A. A. U.

Northwest conference college athletics, while amateur, are under government of the Pacific Northwest Intercollegiate Conference, which has the following rule: "All questions in regard to eligibility and amateur standing or reinstatement of an athlete are to be referred to his own faculty committee on athletics, whose decision shall be final."

Thus, even though the N. A. A. U. were to brand Fee, Dudley and Wheeler professionals, unless barred by the
