**PULPIT NEWS**

The public is invited to be present tomorrow at the Lincoln address to be given by Rev. Edwards of the Methodist church to all who care to hear it, at the Y. M. C. A. commencing at 3 o'clock. This address has been given a good many times by Mr. Edwards and by years of careful study and close attention to history he has become well versed in the characteristics of the distinguished statesman.

**Interesting Theme Chosen.**  
 Tomorrow morning Rev. Ford of the Christian church will discuss the much-mooted topic of what happens when death comes. He has given the subject much study and promises a concise line of argument in expounding the question.

**Union Meeting in Chapel.**  
 The ministers of the city have decided to hold a union meeting in the Lane Memorial Chapel, corner First and Crook, beginning March 5th. Since the chapel serves the community and in function is wholly undenominational, the ministers will take turns in preaching from night to night. The meetings have been arranged for at least two weeks.

Pendleton, Feb. 26.—To bring the annual W. C. T. U. state convention to Pendleton this fall is the purpose of a movement now on here in which the W. C. T. U. organization and the Pendleton Commercial Club are co-operating. If successful, it will mean an important convention for the city in October. Last year the convention met at Newberg and 130 delegates attended. Should the convention come here it is estimated the attendance will be equally large or better.

The selection of a meeting place for the state convention rests with the executive committee which is to meet in Portland March 6. At that time Mrs. J. C. Woodworth, county president for Umatilla county, will present an invitation to Pendleton in behalf of the Pendleton W. C. T. U. and the Commercial club. Mrs. G. W. Rugg, local president, is also working on the subject.

The state convention has never been held in Pendleton and seldom if ever has the convention come east of the Cascade mountains. Accordingly the claim for recognition this year will be based largely on the argument that eastern Oregon is entitled to the meeting.

The state convention usually lasts for a period of three days and the attendance is drawn from the various community leaders in the association's work throughout the state.

**War Orphans Get Care.**  
 Wokingham, England, Feb. 26.—This little English market town is the nation's haven for motherless and fatherless war children. Hundreds of juvenile innocents whose fathers lie buried in France have found homes here. Almost every housewife in Wokingham has a new baby. She probably has adopted it, thanks to the war.

The nuns at Wokingham convent are busy too, for every child who is old enough is a pupil at the convent school. In some cases the father is dead but the mother still lives.

Little Tommy Hadley, age six, is a notable example. His father was a private in the South Lancashire regiment and he was killed early in the war. Since that time Tommy's mother has been ill so the Children's aid Society sent Tommy to Wokingham. He has a foster mother who clothes him and gets him ready for school every morning. One of the older girl orphans calls for Tommy and other boy and girl orphans. By the time she arrives at the convent she has a happy string of changes ready for the day's lessons.

Many of Wokingham's orphans whose fathers and mothers are gone are permanently installed in Wokingham homes. They have changed their names and will grow up with "regular" fathers and mothers. Some of the children are only motherless. The father is still fighting somewhere in the war. If he comes back, which perhaps he will not, the child may leave Wokingham. But in the other event there will be a new adoption in some Wokingham home.

**Why Not Have Perfect Lenses?**

Improvements and betterments in glasses are just as frequent as in anything else. Until a few years ago all lenses were flat, because no one had thought of a better way to make them. Today nearly 90 per cent. of lenses fitted are Toric lenses, curved to follow the shape of the eyeball. Torics give a perfect range of vision from every angle—the edges do not confuse you when looking from the corner of the eye. Let us demonstrate the many advantages of Torics made by us.
