MODART CORSETS Front Laced

For Any Occasion
—A Modart—

ELEGANTLY gowned for the evening, in smart street attire, in riding habit, in fact for any garb of the coming season, women who wear MODARTS take pride in knowing that their corsets fully meet the requirements of the latest fashion trend.

They are assured, because the MODART is designed by Jennings. And Jennings is generally conceded to be the foremost figure in the world of corset designing.

He designs MODARTS only. In them his knowledge of anatomy gives shape to models that insure both perfect poise and comfort, in every form of outdoor or indoor activity.

You will never know the satisfaction of perfect corseting until you have tried a MODART fitting.

J. I. Case Gas Tractors

Case tractors are today the leaders of the world, the standard by which all others are judged. This is not mere advertising talk, but an absolute fact that has been proven many times by actual field tests under the same conditions as those which you will require your tractor to work.

The J. I. Case Threshing Machine Co. experimented twenty years with practically every kind and type of farm tractor before they placed one on the market. This means a great deal to those who are contemplating the purchase of a tractor, perhaps more than you would at first think, among other things it means this, that you are not buying an experiment, but a tested and proven machine, one that you can rely upon to give you the service and satisfaction that you have a right to expect year after year.

In buying a Case gas and oil tractor you have the best possible assurance that you will not be left with an orphaned tractor on your hands after a few years, but, that should ever need any repairs you will be able to get them in the shortest possible time.

The Case name has been a sign of mechanical excellence the world over for more than seventy years, and during this time they have built up a reputation for honesty and fair dealing that you who are thinking of buying a tractor can not afford to overlook.

The above illustration shows the Case 25 H. P. gas tractor which is, we believe, the most practical machine made for the average farmer.

We will have a car load of them here in a few days and would be glad of an opportunity to explain and demonstrate the many advantages of the Case tractor.
