

Facts

GET the facts on the operating cost before you buy any automobile. Find out the truth before—not after. And don't be satisfied with hearsay or a salesman's claims. The price of gasoline is high; so is oil and there is sure to be an increase in the cost of all tires.

So, what you want is the car that will give you most miles per gallon of gasoline, per gallon of oil and per set of tires.

Here are the facts proved by the Maxwell stock touring car that recently set the World's Motor Non-Stop Record:

Maxwell World's Non-Stop Record Facts	
Miles without a motor stop.....	22,023
Average miles per day (44 days).....	500.6
Miles per gallon of gasoline.....	21.88
Miles per gallon of oil.....	400
Average miles per tire.....	9,871

Remember that this was a Non-Stop Endurance Record—in order to prove that the Maxwell car was exceedingly sturdy, reliable and trouble proof.

No attempt was made or could be made to save gasoline, oil or tires. So these figures merely indicate what would be possible under ordinary driving conditions.

Right now we have a Maxwell we can deliver to you, and if you don't want to pay cash, make a deposit and pay the balance as you use the car. **But don't put it off.** We know the Maxwell factory can't get half enough freight cars to carry their doubled output. Later on we may not be able to supply you. But we can NOW. Better phone us for a demonstration today.

Huntington, March 23.—Last week seven head of horses belonging to Charley Libby left the ranch and were found at Olds ferry. The animals crossed both the railroad bridges—the one over Burnt river, and were just ahead of a freight train while crossing the trestles over the long Snake river bridge and made the trip without injury. This seems impossible, but nevertheless it is an absolute fact. There is no truth in the story that Libby is thinking of resigning as manager of the big Huntington stock yards and joining a circus with his bridge-walking bang-tails, taking Pat Adams along as barker.

Oregon consumes annually over 2,200,000 cords of fuel wood, which reduced to board feet, amounts to over 1,105,000,000 feet.

As The Years Pass

Every individual faces declining years and diminished earning capacity.

Statistics show that only five men out of each one hundred are able to live on their incomes at the age of sixty. The other ninety and five are dependent upon their daily earnings, then relatives, friends or public charity for support.

A Savings Account consistently maintained in The United States National Bank and earning 4 per cent interest, is a most effective means of preparing for independence and comfort in later years.

Oregon produces annually approximately 1,610,000,000 board feet of logs, but consumes over two billion, or 27.1-2 per cent in excess of her log production. She draws heavily on Washington for this excess.

MODART CORSETS Front Laced

HAVE YOU MADE THIS TEST OF YOUR CORSET?

DO YOU feel occasional languor, intervals of listlessness, intermittent indigestion, an intense relief at the moment of uncorseting?

If you feel these symptoms you are developing a premature matronly figure, sacrificing health for fashion. Women who wear MODARTS never feel these warnings. For the Designer of MODARTS Corsets is generally conceded to be the foremost corset designer in the world. Every smart effect he creates must also meet his approval as an anatomist. So, if you seek to improve your figure—if you seek to gain new grace of carriage—if you seek to promote your health and comfort and at the same time conform with prevailing styles—then we urge you to have a trial fitting.
