DEMISE OF MRS. PAYNE

COVE MOURNS DEATH OF PIONEER WOMAN

"Grandma" Keefer Another Cove Resident Answers Final Summons

Cove, Ore., March 30.—(Special)—Cove people are saddened by the sudden death of Mrs. Vina Payne, on Friday evening, at the home of her daughter, Mrs. A. O. Huntley. Mrs. Payne was a pioneer resident of this section and was loved by all. She leaves two daughters, Mrs. A. O. Huntley and Mrs. T. W. Conklin, besides other relatives and hosts of friends. The funeral was held at the family home Monday afternoon, Rev. G. L. Clark of La Grande, officiating, and a large concourse of sorrowing people followed the remains to Cove cemetery, where interment took place. We extend our sympathy to the bereaved ones.

"Grandma" Keefer passed away at her home on March 18. Funeral was held at the L. D. S. church on Sunday afternoon and interment took place in Cove cemetery.

H. L. Becker sold his driving team to Mr. De Long. The team has won many blue ribbons at the Union Stock Show.

Mrs. E. W. Borkgren is visiting at the T. B. Johnson home in La Grande. Geo. Baker has just returned from a two weeks' visit to his son Roy and family at Enterprise.

"Grandma" Lane is on the sick list this week.

Rev. LaRee, an evangelist has been holding meetings in the Baptist church for two weeks.

The Ladies Aid Society held a dime social at Mrs. O. T. Severs yesterday. Another car of fat hogs was shipped from here last Saturday by T. B. Johnson, the local buyer.

Sign of Good Digestion.
When you see a cheerful and happy old lady you may know that she has good digestion. If your digestion is impaired or if you do not relish your meals take a dose of Chamberlain's Tablets. They strengthen the stomach, improve the digestion and cause a gentle movement of the bowels. Obtainable everywhere.

ELGIN COLONY MIGRATES

Catlow Valley Draws Group of People From the North End

The Elgin Recorder says that a colony of Elgin people, consisting of 10 members expect to leave the fore part of next week for Catlow valley, Harney county, to establish residence on homestead claims. Those who will comprise the party are Mr. and Mrs. Roy Flexer, Mr. and Mrs. C. C. McCallister, Mr. and Mrs. Luther Cummins, Alvin Ohms, Cecil Huffman and Otto Klinghammer. All will make the trip overland and the party will leave Monday or Tuesday, weather permitting. All the male members have filed homestead applications there or will at the time of their arrival, except McCallister, who may file under the desert land act.

Hugo and Reinhold Klinghammer have also made homestead entries in that section but will not establish their residence until later.

Catlow valley is situated close to the Steens Mts., Beckley being the closest postoffice to the land upon which the Elgin people will move.

All who will make the trip are well known people in Elgin and their many friends wish them success in their new location.

DANCE BAN EFFECTIVE

Few Attempts To Comply With the Stringent Dancing Rules in Elgin

Elgin, March 31.—Elgin, like many other cities, has felt the sting of dancing ban measures. The last dance given in Elgin was in honor of St. Patrick, March 17th, which is a long, long time for many who enjoy doing the two-step, waltz, turkey trot and a few of the other new fangled dancing stunts. The new ordinance passed at the last session of the city council and which went into effect five days after posting, placed a ban on all but the old fashioned dances, and placed dance halls and the managers thereof under close restrictions and as yet no one has secured a license for that purpose. That the feet and footsies of a lot are fairly itching to just get a chance at even a due's temps or a lively two-step is whispered about.

The Elgin Concert Band is considering the proposition of leasing Rex Hall and in that event dances will be resumed at an early date.

COMBATTING POTATO PEST

NOTES PREPARED BY COUNTY AGENT

Proper Solution To Be Used In Spraying Trees

(By PAUL H. SPILLMAN)

Up to the present time I have been recommending the use of bichloride of mercury at the rate of one part to one thousand of water as the best solution to use in combating our potato disease. It is the most effective and should be used in preference to any other, so far as practical. But some times cost price, makes a cheaper substance advisable. War conditions have in this case been responsible for a rapid rise in the price of this chemical. It has been steadily advancing until at the present time we find it practically doubled in value. This being the case, I believe many of you would not feel as though you could afford to use it on a large scale, so am recommending the next best remedy. That is ordinary formaldehyde, the same as you use to treat grain for smut, used at the rate of one pint to 30 gallons of water. Soak seed for two hours, dry, cut up as usual. In using be careful and measure both water and chemical, as you can make the solution too strong and injure the seed. Formaldehyde at the present time costs about 40 cents a pint or \$2.25 a gallon, thus making your solution cost you about a cent a gallon.

Spraying Fruit Trees

To successfully spray fruit trees of any kind we must know what we are spraying for in the first place. Secondly, we must know when the proper time arrives to do this spraying. We cannot spray and expect results if we spray whenever we have time or nothing else to do. Thirdly, and fully as important, we must use the right spray for the insect or disease we are trying to combat.

It is not yet too late to apply the winter sprays. Lime sulphur, one part to twelve of water with black-leaf 40, one part to 900 parts of the one to twelve lime sulphur solution, if applied just as the apple buds begin to swell, will control the aphids quite well and also the scale insects. If you have no aphids, leave out the Black-leaf, and apply the spray any time before the leaves come out. This strength will also be of value. This spraying gooseberries and currants before they leaf out.

Lime Sulphur, one part to 30 of water, is used for apple scab; the time flower buds in the cluster begin to spread and show color; second, just after the petals begin to fall; third, ten days to two weeks later. At the time of the second scab spray, add two pounds of arsenate of lead to every 50 gallons of the Lime Sulphur solution, thus you will be combating both Codlin moth (apple worm) and scab at the same time, instead of making two sprayings. These directions hold for the pear also.

Lime sulphur, one part to fifteen of water, applied just before or as the peach buds begin to swell, but before they show any green, will control the Peach Leaf Curl.

You can make your own lime sulphur solution as follows:
Sulphur, best finely ground, one sack 100 lbs.
Lime, best grade, unslacked, 60 lbs.
Water, sufficient to make . . . 50 gal.
Slack the lime, mix in a thin paste with a little water, add to the lime, add sufficient water to make 60 gal. all told. Bring to a boil and boil vigorously for 30 to 35 minutes, stir constantly. Allow to settle, drain off the clear amber liquid. This may be stored for future use. When using dilute with water as various sprays demand. You can buy this solution on the market instead of making it.

Colds Quickly Relieved.

Many people cough and cough—from the beginning of fall right through to spring. Others get cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, stops the racking, rasping, tissue-tearing cough, heals the inflammation, soothes the raw tubes. Easy to take, Antiseptic and Healing. Get a 50c bottle of Dr. King's New Discovery today. "It is certainly a great medicine and I keep a bottle of it continually on hand writes W. C. Jesseman, Franconia, N. H. Money back if not satisfied.

Open Air Tonic

Let your spring tonic prescription read something as follows says an authority:

1. Eat meat but once a day and sparingly.
2. Those not under the doctor's care should take a glass of water before retiring for the night and one an hour before breakfast.
3. Get all the fresh air possible.
4. Sleep with your windows open.
5. See that your clothing is heavy enough to protect you against sudden changes of weather.
6. Walk in the open air five or six miles a day.

When to Take Chamberlain's Tablets

- When you feel dull and stupid after eating.
- When constipated or bilious.
- When you have a sick headache.
- When you have a sour stomach.
- When you belch after eating.
- When you have indigestion.
- When nervous or despondent.
- When you have no relish for your meals.

Obtainable everywhere.
War's End June 17 Predicted
London, March 31.—An English army officer was starting for the front last year. He called at his bank to settle up certain affairs before departing.
"You'll be back soon with a wound-

ed hand," said the bank manager. He was.

His wound healed, the officer made ready to go back to the front. Meeting the bank manager, he inquired:

"Any more predictions?"
"You'll be gone longer this time," said the manager, "and when you do return, it will be with a bad wound in the leg."

This also happened. The officer was much surprised. Hunting up the banker, he inquired: "Since you know so much, why can't you tell me when the war will end?"

"It will end," said the manager, "on June 17, 1916, but I shan't live to see it. I'll just about live until New Year's day and not much more." He died January 24.

The London Financial News, a very sober, unimaginative, reliable newspaper, vouchers for this story.

Dangers of Draft.

Drafts feel best when they are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Lintiment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Lintiment will give grateful relief. The agonising pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c at your Druggist.

MODART CORSETS Front Laced

HAVE YOU MADE THIS TEST OF YOUR CORSET?

DO YOU feel occasional languor, intervals of listlessness, intermittent indigestion an intense relief at the moment of uncorseting?

If you feel these symptoms you are developing a premature matronly figure, sacrificing health for fashion.

Women who wear MODARTS never feel these warnings. For the Designer of MODART Corsets is generally conceded to be the foremost corset designer in the world. Every smart effect he creates must also meet his approval as an anatomist. So, if you seek to improve your figure—if you seek to gain new grace of carriage—if you seek to promote your health and comfort and at the same time conform with prevailing styles—then we urge you to have a trial fitting.
