AT THE MOVIES

AT THE ARCADE

TWO ROLES FOR PAULINE FREDERICK.

Famous Players' Star Incomparable in "The Spider."

Pauline Frederick in two roles in the same production! This is the first time that the great Famous Players star, who recently appeared in "Zaza" and "Bella Donna" has ever been seen on the screen in widely different characterizations. In this Paramount Picture, "The Spider," Miss Frederick plays Valerie St. Cyr, a notorious Parisian beauty, and her abandoned daughter, Joan Marche. The one has fled with a profligate nobleman, leaving her little baby with its sickly, poverty-stricken father. The baby grows up to be a beautiful girl who is employed in a flower shop. She becomes engaged to Julian St. Saens, a young artist of very puritanical principles who is drawn to her by the girl's total unsophistication and her rare beauty. Thus Miss Frederick is called upon to portray characters that are diametrically opposed to each other. "The Spider" will be the feature attraction at the Arcade theatre Friday and Saturday.

AT SHERRY'S.

HURT IN BATTLE SCENE.

Destruction of Mined Village Injures Over Score of Actors.

A score of photoplay actors and several spectators were injured during the making of the William Fox photodrama "The Serpent," in New Jersey. The play deals with Russian life and includes several battle scenes.

In order to make the engagements between the Russians and the Germans as realistic as possible, Director R. A. Walsh employed two military experts to supervise the maneuvers. A large plot of ground was mined and the mines were to be exploded just after a detachment of retreating soldiers had passed over them.

Because of a mistaken signal the man operating the electrical connections opened the switch too soon. In the premature explosion which followed, actors, guns, swords and munition wagons were hurled several feet into the air. Theda Bara, star of "The Serpent," who was watching the battle scenes, fainted. Ambulances from Fort Lee and surrounding places removed thirteen actors and supernumeraries, whose injuries ranged from lacerations to broken bones.

"The Serpent" at Sherry's today and tomorrow.

"Soup Plate" Helmets

London, April 5.—The English troops on the western front are coming to the steel helmet, as well as the French.

The new headgear had its first good trial in the recent fighting at the "Bluff" north of the Ypres-Comines canal. It proved a great success. In many cases the helmets were hit and dented by pieces of shrapnel which did not even wound the men under them. In others the wearers suffered nothing worse than the equivalent of a stiff wallop with a club.

The English vary somewhat from the French helmets. They are of steel, painted gray, something like inverted bowls in appearance, and far from ornamental. They furnish efficient protection, however, for the head and neck. The soldiers call them "soup plates."

Their serviceability has given rise to much unofficial talk concerning the wisdom of clothing the men in breast and back plates for trench fighting and charges.

NORTH POWDER WIDE AWAKE

MANY NEW BUILDINGS UNDER CONSTRUCTION.

Tractor Engines for Farm Work Are Being Extensively Used.

North Powder, April 4.—(Special)—North Powder did herself proud in the matter for school bonds and there were only two votes against where they expected to have a strenuous opposition. Twenty-five thousand dollars spent rightfully and carefully will give us a good school house and place the town in the place which she is entitled for good schools. There is not anything that goes for a town as good schools and with amounts now available from the sale of the bonds there is not anything to keep us from having the best schools in Eastern Oregon.

Miss Alma Cusic of Jimmy Creek began a spring term of school in that district on April 3rd. This district having so many little children which have to go a long way to attend school have a spring and fall term of school thereby missing the stormy weather in the winter. Some of the children ride four miles to this school.

A building wave has struck North Powder in full force. Bob Haynes will have a brick garage put up; Hoover & Monday a brick structure for a butcher shop. The new school house will be built out of brick. The addition to the Forsstrom-Pfleger building is already under way. McCurry & Son are having an addition put on their store.

Grant Dalton is having his residence painted and several are following his example.

Charlie Hutchinson is the proud father of a new boy that arrived at his home a few days ago.

John Shaw has purchased a Galloway tractor and three plows and will farm by the tractor method this year.

Gorham Bros. have purchased engine plows and will farm by that method this year.

Chas. Jacobson will use his steam engine for plowing, having bought plows to go with it. Other persons are trying out the same methods and many are awaiting the results with interest if they are successful by this method others will take it up.

Oscar Pfeiler is the proud possessor of a new Buick and is now taking lots of "joy rides."

George Angbey left for Pendleton Monday evening where he will be one of the Federal jurors for the coming term.

Alma Jones will complete his house in a few days and will move in at once.

Chas. Jacobson has purchased a "Cole 8" from Forsstrom-Pfleger which will soon be delivered in North Powder. A number of people are anxious to see this big car.

Mr. Hooper is hauling out fence posts from town to his ranch where he will build more fence.

Mr. and Mrs. Homer Bidwell were town visitors on Monday afternoon.

Hess Bros. have purchased a Ford car and are having lots of work for it to do these fine days and good roads.

Duke and Duchess At Flower Show. New York, April 5.—The Duke and Duchess of Connaught and their daughter, Princess Patricia, (Princess Pat), are to attend the opening of the International Flower Show at Grand Central Palace here today, as patrons of the Canadian Red Cross Tea Garden, a feature of the big show.

New York society is much interested in the coming of the Canadian

nobles, who will remain here for several days before going west on an extended visit to several mid-western and western cities of the United States.

Today's entertainment for The Governor General of Canada, the Duchesse and Princess Pat, whose regiment in the Canadian Expeditionary force in Europe has so distinguished itself, is under the direction of Miss Margaret Cameron, official representative of the Canadian Red Cross in the United States.

Canada is taking an important part in the flower show and also has a delegation of 50 charming Canadian ladies serving in the tea garden, which is one of the prettiest and most elaborate features of the show.

A committee of Canadians will assist Miss Cameron who is a sister of Mrs. Belmont Tiffany. Mrs. Tiffany and Mrs. William Kinnicutt Draper are assuming active management of the tea garden. The Canadian committee will include Mrs. William Dodson, Mrs. Dr. Charles H. Peck and Miss Hay.

The International Flower Show in the Palace from April 5 to 12, inclusive will be the greatest show that this country or probably the world has ever known.

American florists will show many new creations, and there is a constant interest among amateurs. The Far East will make contributions, while Australia and South Africa and different South American countries will be among the exhibitors.

A special new feature of this show will be the rock garden exhibits. This style of garden is comparatively new in America, but it is beginning to excite considerable interest. The idea may be carried out in many ways, in all of which rocks, stones, flagging, posts, mossy banks, creviced walls, and rugged settings predominate. Such a garden properly planned and planted with many new varieties of plants adapted to it is a delight, and after about two years has the appearance of age so much sought in our newly laid grounds.

The new Chinese lilies which have excited so much attention among professional horticulturists in the last year or two, will probably be shown with many other new Chinese plants and shrubs to be found handy in this climate. The Farquhars of Boston will exhibit these, which are the result of long and arduous trips through unexplored regions of Western China made by the celebrated botanist and naturalist, E. H. Wilson.

The lilies, in appearance like Easter lilies, have been found to do splendidly in the Middle Atlantic states, putting forth their magnificent blooms in Summer for years after the first planting, with little or no attention.

The acacias, chiefly from Australia, will be seen at the show in their best flowering condition. The delicate yellow flowers, or tassels, are in many of the varieties delightfully fragrant.

South Africa will be represented by several varieties of amarullis with flowers of gorgeous hues.

The rose garden of which it is expected there will be five or six, each covering 500 square feet of space and embodying most original ideas in the way of arrangement and inclusion of accessories will form, perhaps, the prime feature of the show. Everybody loves roses, and the strong competition for the chief prize, 500 dollars in cash, will insure a great treat for the visitors. The display of climbing roses will be very large, as also will be those of the tea, hybrid tea and perpetual roses, suitable for outdoor gardens. Among the cut roses will be found specimen blooms of new varieties which until now have been seen only by a favored few. Some of these are of American origin, and demonstrate what our own hybridizers are doing in the rose world.

Englishwomen Taking Men's Jobs. London, April 5.—Nine per cent more women were employed in December, 1915, than in July, 1914 in English industry, including national munition factories but exclusive of commercial, clerical, professional, railroad and miscellaneous govern-

ment work. The estimate is the Board of Trade's.

Every month, it is added, 17,000 more women enter fields of work hitherto practically monopolized by men.

During the 18 months ended Jan. 14, 1916, the labor exchange placed in employment 617,000 women and girls. This is a 47 per cent increase over the 18 months preceding the war, which indicates that 288,900 women have taken men's places.

The development of the work also has been progressive. In the first six months of the war the exchanges found work for 152,000. In the second six months the number was 218,000. In the third six months it was 255,000.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have headache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
