From Theory To Fact

"That's the way with a man."
"What is?"
"He often said he would lay down his life for me."
"Well?"
"And now he grumbles when I ask him to lay a carpet."

Difference in Drug Buying

"GOODS WELL BOUGHT ARE HALF SOLD"

We are careful buyers, always insisting upon quality—and when goods are received they are stocked in a way which guards against deterioration.

Where special lines of Imported Goods cannot be secured we replace them with the best American-Made Brands.

You should form the habit of careful drug buying. If all buyers would form such a habit, there would be no further market for impure, impotent drugs.

Only pure, high-grade drugs are to be found in our stock—goods which we can sell under a strict guarantee.

If you are not a judge of drug quality, why not rely upon our judgment.

BURTON WILL TALK APRIL 22

BAND TO GREET HIM AT THE DEPOT.

Reception to Be Held at Foley After Speech on Streets.

Complete arrangements have been made for the coming of Theodore E. Burton, Ohio's United States senator for a number of years, who now aspires to the Republican presidential nomination. He will arrive on the 8:30 p. m. train, April 22, but prior to his coming the La Grande band will be out, gathering a crowd for him. Senator Burton will speak on the street unless the weather is very bad, in which case he will be taken to the city hall to deliver his talk.

After the speech he will receive friends at the Foley hotel for an hour or so, giving all an opportunity to personally meet the presidential possibility.

He will leave on the midnight train again.

REPLY TO "BIG FOUR"

W. R. Scott, of Southern Pacific Says Company Won't Yield.

San Francisco, April 8.—In a statement issued today W. R. Scott, vice president and general manager of the Southern Pacific company, makes public the reply to the demands recently made on the railroads of the country by the four great brotherhoods of railway train service men. His reply indicates that the Southern Pacific will resist any effort of the men to secure higher wages. Scott said:

"These employees demand a wage increase amounting to \$110,000,000 annually. The railroads are not in such financial condition as to permit granting the demands.

"It is not true that the men want a shorter day. They demand 10 hours' pay for eight hours' work with increased overtime.

"The men asking the increase are already the highest paid of railroad employees. The situation is serious for other employees, for the railroads and the public."

Telegrams announcing their re-election at the annual meeting of the board of directors have been received by President William Sproule, Vice President Scott, Chief Counsel William F. Herrin and Vice President E. O. McCormick.

Pilot Rock, April 11.—Joe Royer, well known pioneer hotel man of Pilot Rock, has leased the Lehman Springs resort for the coming season and expects to take possession just as soon as the roads become passable to the place, probably June 1.
