ARCHITECT
MILTON S. BLOCK—Architect. Sketches and estimates cheerfully furnished. Office, Room 26, New Foley Building.
Difficult
A London man just back from the States says that a little girl on the train to Pittsburg was chewing gum. Not only that but she insisted on pulling it out in strings and letting it fall back into her mouth again.
"Ma-bell!" said her mother in a horrified whisper. "Ma-bell, don't do that. Chew your gum like a little lady."—London Opinion.

MODART CORSETS
Front Laced
HAVE YOUR EASTER SUIT OR GOWN FITTED OVER A MODART CORSET
DISCRIMINATING women—Women who know the modes—Always seek these advantages in a corset.
They seek symmetry and graceful figure beauty to make the gown attractive—
They seek the smooth back made possible by the absence of laces in the back of the front laced MODART.
They seek ease of carriage—comfort—
They seek ease in adjustment.
They seek freedom over the diaphragm—
They seek these advantages combined with the modern notes of fashion—
And they find complete expression of these ideas in MODART Corsets.
Let your next corset be a MODART and select it by fitting room proof.

Sommer Hotel Bldg.

SPORT NEWS

Baker, April 13.—Organization of an Elks ball team, was authorized last night at the meeting of Baker lodge No. 338, B. P. O. E. and Louis Fernald, at one time a director of the destinies of the Baker club in the Tri-State league, was appointed organizer.
Pendleton, April 12.—Lester Hurst set up a record for a prize catch Sunday that will give the anglers of the county something to cast for all season. With a five ounce rod and a No. 5 hook he landed a 26 inch rainbow trout in McKay creek and it weighed between six and seven pounds.
Many anglers were out in all directions Sunday but few report any degree of luck. The water is yet too high and too murky for good sport, they report.
The La Grande high school track team will hold its annual Medley race next Saturday, intended to further test out the powers of the squad.
GRAINMEN OPPOSED.
Umatilla Association Drafts Measure Against Road Bonds.
Pendleton, April 13.—At a meeting of the Inland Grain Growers' association held here Saturday, the following resolution was passed by the directors, and the president instructed to give copies of the resolution to the press with request that the same be published.
Resolved, That we, the directors of the Inland Grain Growers' association of Umatilla county, respectfully and urgently protest against the proposed \$980,000 road bond issue, and urgently recommend the millage tax for the creation of a special road fund for the permanent improvement of the highways.
This association endorses the plan of the more permanent improvement of the roads, and believes the plan of constructing the improved roads leading from the wheat belt to the market centers, is the better plan; that the funds derived from the proposed bond issue, if used in conformity to the plan outlined, would in the greater part be used in the hard surfacing of a few miles of roads paralleling the railroads, and would be used principally for pleasure purposes.
This organization being a farmer's organization, we urgently urge the farmers to register, and to see that the full vote of the farming community comes out at the primaries and votes against the bond issue.
We warn the voters not to neglect to vote upon this question at the primary election. The vote there is final and conclusive. The measure will not go on the ballot again at the general election.
Dated April 8, 1916.
Signed:
C. A. BARRETT, Pres.
HENRY TAYLOR, V.-Pres.
J. O. HALES, Sec.
Explorer And Bride On Honeymoon
Yokohama, April 10.—Roy C. Andrews and his bride arrived here today from New York and San Francisco on the steamer Tenyo Maru, equipped and ready to start on their long honeymoon and tiger hunt through the remote wilds of Western China. Little Mrs. Andrews probably is the first white girl to go into such a land, on such a mission, for her honeymoon.
Andrews is in charge of the American Museum of Natural History's Asiatic zoological expedition; and he and his bride are to bring back with them tigers, leopards, elephants, specimens of the rare "Snow Leopard" and "huge, Maltese Brown Man-eating Tiger," together with many other wild beasts of the Chinese jungles and mountains.
Mrs. Andrews is the photographer of the expedition. She carries a new motion picture camera, invented by Car Akely, African explorer and elephant stalker. She also will take color pictures of animals in the mountains of China.
"We will go right into the field of tiger hunting upon our arrival in China," said Mrs. Andrews, "and if we are fortunate we will send some fine specimens of the man-eating tiger to the Museum. If our hopes are fulfilled the members of our party will begin to look for big game about the second week in May. Our schedule calls for a year of actual work in the field."
At Pekin the expedition will obtain letters on the viceroys of the different provinces in China. Around Poochow, a large city on the coast between Shanghai and Hong Kong, the tiger hunting will begin, for it is in this region the tiger abounds.
"From Pekin," said Andrews, "we will sail down the coast to Foo-chau, in Fu-Kein through the Bohea mountains, some 300 miles inland from the Strait of Formosa. There is big game in this region and we should obtain valuable and new specimens."
"From Fu-Kein my wife, Heller and I will go up the coast to the mouth of the great Yantse to Tungting Lake. Here we will follow another stream by boat as far as we can get toward Wei-Chau Province."
"This province is one of the wildest and the most difficult to enter in China. There are no roads and few inhabitants. The country is mountainous and rugged. This will be the main field for our work on this trip, though we probably will push on into the province of Yunnan, unless the revolution that has recently broken out there makes it too dangerous. We may even go into Tibet."
"All this country is semi-tropical; cold in the mountainous regions and hot in the plains. This part of central Asia probably formed the birthplace of the human race."
Few women have ever undertaken

ANNOUNCEMENT
Introducing Mr. C. Frizzell, Expert Electrical Worker--
Realizing for some time that La Grande and Vicinity should have a first-class electrical worker I have been endeavoring for several months to locate such a man. All garages in Country Towns have men who work on electrical equipment, but to get a graduate from the inside shops of the Splittorf Electric Company is no small undertaking as I have just learned. But I succeeded in getting Mr. Frizzell, and have letters from the Splittorf Electric Company and other successful concerns attesting to his ability as an electrical worker so that I can now say to my trade that I can guarantee proper workmanship on the electrical end of the automobiles.
Very few Garages in the country can make such a claim, but I stand behind and guarantee all of Mr. Frizzell's work. He is expert on Magnets, Generators, Starters, Storage Batteries. Come to us with your electrical work.
LEIGHTON'S GARAGE
R. W. Leighton, Proprietor.

the Yale Peruvian expedition.
"Animal life in Central Asia is of greatest interest to the scientist," Andrews added. "Most of the larger animals of the North American continent have their ancestors there. The mountain sheep of the Rockies, the elk the moose and the buffalo migrated northward and crossed Bering Strait in the days when the strait was dry land."
At least, we have Villa to thank for his promotion of the preparedness campaign.—New York Tribune.
HOW APPENDICITIS CAN BE PREVENTED
La Grande people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Ad-ler-i-ka, often relieve or prevent appendicitis. This simple mixture removes such surprising foul matter that one spoonful relieves almost any case of constipation, sour stomach or gas. A short treatment helps chronic stomach trouble. Ad-ler-i-ka has easiest and most thorough action of anything we ever sold. Putman Drug Store.

A Little Bird Told Me—
that I'd never be smoke-wise until I got wise to "Tux." And now life is just one joyous pipe-dream! For "Tux" is packed so full of smiles and brightness that every luscious, long-drawn puff makes a fellow happy as a lark at sun-up.
Tuxedo
The Perfect Tobacco for Pipe and Cigarette
There are three reasons for the brisk, bracing, hustling vigor you get out of Tuxedo—(1) Choicest leaf; (2) Slow, perfect ageing; (3) "Tuxedo Process."
And it's the last that brings out the best that's in the other two!
For it's the "Tuxedo Process" that removes the final trace of harshness from the leaf and makes Tuxedo the mildest, wholesomest tobacco in the world.
Millions of dollars have been spent in vain attempts to imitate the "Tuxedo Process." But not one of the imitations has ever approached—much less equalled—the "Tuxedo Process," which was discovered by a doctor. Tuxedo never bites your tongue, irritates your throat, or bothers your nerves—as a week's trial will prove to you.
