**BURTON RALLY
ON SATURDAY**

PRESIDENTIAL CANDIDATE TO
MAKE ADDRESS.

After the Speech a Reception Will Be
Held at the Foley Hotel.

Senator Theodore E. Burton, of Ohio, and Presidential candidate will be in La Grande Saturday evening. He will make an open air address and this will be followed by a reception at the Foley hotel. On account of the prominence of the visitor and the fact that he is seriously considered as an important element in the approaching Presidential election, his appearance in La Grande will be made the occasion of a Republican rally, not only as a matter of appreciation of the distinguished Ohioan's visit here, but also as a mark of loyalty to the political principles which his record has so ably maintained. There will be band music and the reception will be participated in by the most prominent Republicans of La Grande and vicinity.

The Oregonian says editorially of Theodore E. Burton:
A President of the United States has said publicly that Theodore Elijah Burton is "a statesman and a scholar and that he is well qualified to fill the highest office in the gift of the people." Undoubtedly it is a deserved tribute to a public man who has given the greater part of his life to the service of the people, and who has made in Congress an indelible record of fidelity, efficiency, industry and independence.

Let us emphasize the last-named quality. Mr. Burton served for many years in the lower house of Congress, and a term in the Senate; and there was no time throughout his Congressional career when he did not take the course good conscience and sound judgment indicated. He was and is a Republican, but he never permitted partisan demands in any way to interfere with the public welfare; nor did he suffer his duty to his immediate constituency to impair his large vision of a great and united Nation.

It is of record that a body of citizens from Cleveland, the home of Senator Burton, waited upon him with a petition for support of a certain Federal appropriation for the harbor of that port. "I do not think the United States is justified in making this improvement," replied the Senator in effect. "Nor do I assume that any American citizen from Cleveland or anywhere will expect that I support a measure which my judgment does not approve." Nor did he.

The extraordinary service performed by Mr. Burton as member and chairman of the rivers and harbors committee of the House, and later as a Senator, in his unceasing warfare on the pork barrel, is well remembered. It entitles him to the grateful appreciation of everyone who believes that appropriations should be made on their merits and not upon the size and strength of Congressional pull. It ought to be mentioned also that Senator Burton is and has been a friend of the Columbia River, and has favored reasonable and even generous appropriations for its improvement. But he has been invincibly opposed to the system which saddled down useful projects with wasteful and criminal expenditures for other schemes not worthy of any kind of consideration on their merits.

Mr. Burton is an authority on finances and political economy, and he is well versed in every other subject which has called for Congressional action. He is no Little American, though he had not until the European war burst upon the world favored large investment in an Army and

Senator Burton is in Oregon addressing the people on current issues, and incidentally giving them an opportunity to take his measure from personal contact as a candidate for President. The Oregonian does not hesitate to say, from his knowledge of the visitor, and from long observation of his admirable record, that he has a right to consider himself suitable timber for the Presidency.

Manager's Weekly Report.

General manager's report for the week ending April 15, 1916.

To the Commission:—There were no fires last week.

Police arrested two girls for disorderly conduct last week. One paid a fine of \$5.00, the other case was continued. Fifteen sleepers put up at the station. Two head of stock were impounded.

The water department spent \$5.75 on shut off list on the eleventh; \$5.75 putting in a tap; \$23.72 on repair work and \$10.00 cleaning out septic tank ditch. April 14th Mr. Hoyt and Chief Mackey went out on the pipe line as far as Rock Creek, repairing phone line and leaks in pipe. Had a team from the St. Louis barn.

The street superintendent had three teams and drivers a total of eighteen days costing \$85.50; labor cost \$42.75; white wing \$15.00; cross walk lumber \$35.27 and keg of nails \$4.45. Repairs on North Fir macadam were completed. Lake avenue was cleaned, repaired with gravel. Inside streets were flushed and cleaned and gutters were cleaned on the rest. All available crushed rock has been used up.

The recorder received \$5.00 fines; \$2.00 pound fees; \$11.85 from the sale of old brass from the fire department; \$4.00 for eight building permits and \$5.00 for dog licenses. He issued a plumber's license on \$20.00 treasurer's receipt and one dray license on \$10.00 treasurer's receipt. He issued a Park warrant for \$5.50 on voucher No. 58 and \$16.25 on voucher No. 62. He issued \$2133.12 warrants for bills al-

lowed at last meeting of commission.

The treasurer collected \$476.90 water rents; 631.44 improvement district installments; \$304.34 improvement district interest; \$6.17 principal and \$9.70 interest on district No. 92; \$2.80 principal and 55 cents interest on district No. 89; \$15.60 interest sewer two section three; \$10.00 dray license; \$20.00 plumber license and \$9.00 for six electrical permits. He paid \$81.68 water warrants; \$121.14 road warrants; \$21.75 park warrants and \$19.81 improvement district interest. The treasurer reports a turnover of about \$24,000 taxes. This makes it possible to call general warrants to Sept. 9th, 1914. While this leaves general warrants as far behind as usual in months and days the

amount is much smaller in dollars and cents. January 1st, 1914 there were \$100,000 general fund and \$10,000 water fund warrants outstanding and drawing interest. Besides most holders had discounted them at the bank at 10 per cent discount. After today with only half the taxes paid there are but \$45,000 general fund warrants outstanding and drawing interest. Recent purchases of warrants were at 96. In the near future these should be par. The effect on the city's finances so far is apparent only in the amount of interest paid on outstanding warrants and on the purchasing power of warrants worth par or nearly so.

Respectfully submitted,
F. J. LAFKY.
