PROHIBITION LAW DISCUSSED. Legislative Aspect Regarding Change in Law Considered. R. P. Hutton, superintendent of the Anti-Saloon league, says that the action of the Multnomah legislative candidates whereby all the candidates refused to answer a lot of questions or pledge themselves to his amendments, is largely satisfactory to that organization. "If the action of the Multnomah candidates for the state senate and house presages, as it seems to do from the published reports, that they will stand like a rock against any relaxation of the present law, then the more important part of the task which the Anti-Saloon league set out to accomplish has been done, so far as this county is concerned," said Mr. Hutton. "It is no secret that Oregon brewers have cherished the hope that they may be permitted to manufacture for export, and to be allowed to deliver direct or through distributing agencies, such amounts as are now permitted to be received by common carrier. It is no secret that some of the candidates have talked favorably of this, and that a whole lot of so called 'business interests,' consisting mostly of persons formerly in the liquor business or enjoying business relations with those who were in that business, have been talking this very quietly. "It is no secret that the hotel men hope to get the special privilege of selling liquor with meals, and that they have industriously conducted a personal campaign for this. "It is no secret that the hopgrowers on February 9, in their state convention, declared for a campaign to class 2 1-2 per cent beer as a temperance drink. It needs no lawyer to tell anyone that if beer is a 'non-intoxicating' drink the brewers could immediately begin manufacturing it and the hotels selling it. Thus they would, by this one act, accomplish all that the brewers and hotel men, and the hop men themselves, hoped for. "The publicity which last night's meeting gave to this has made it doubtful whether a member can be found who would introduce such a proposition on the floor of either house. Indeed, it is doubtful whether the interests behind the propositions would now wish to put them forward. We have saved the legislature much pressure which would have been put upon them by the wets." Extravagance Visitor--"Well, Robert, how do you like your new little sister?" Robert--"Oh, she's all right, I guess but there are lots of things we needed worse."-- Judge.

Do you know why the J. I. Case T. M. Co. of Racine, Wis., gives the purchaser of every Case Gas Tractor a signed guarantee that it will do more and better work than any other tractor of equal horse-power, regardless of name, type, or price? If it does not do all this it does not cost you anything and you are to be the judge on your own farm. The entire Case Company stands back of this guarantee and can make good every word of it. They take the risk, not you. This is the strongest and broadest guarantee ever given by a reliable tractor company. For 74 years the J. I. Case T. M. Company have been giving this guarantee on all their farm machinery and if they had not made good in every way they would not be running their factories over-time to fill their orders. Case Tractors will do your work cheaper and better than horses or any other tractor. We have a Case 12-25 (12 h. p. on the draw-bar and 25 on the belt pulley) gas tractor here now and can prove the above statement to you if you will give us a few minutes of your time. Case Tractors are simple and easy to operate. Nothing complicated or confusing about them. They are very economical in the consumption of gas and oil and are just as cheap as a good tractor can be built. If you are interested in a tractor you will find that Case is worthy of your most careful consideration. CALL AND LET US SHOW YOU J. A. CHANDLER, 2 1-2 miles Northeast of La Grande Phone Black 3702.
