## CANNERY MAN LAUDS SCHEME

SPEAKER TELLS COMMERCIAL CLUB OF CONDITIONS.

Gives Figures Indicating Returns to the Producer of Products.

Possibilities of canning factories, figures as to cost of plant and data concerning the market value and what canning vegetables will produce to the farmer, were told this morning at the Y. M. C. A. to a group of Commercial club members by the senior member of the firm Henninger & Ayers, steam pressure canning plant makers of Portland.

The speakers cited instances where canning has been successful on a \$1000 plant basis for a community like this. He pointed out "the market is ready, and the producer gets good pay."

In this connection he read statistics showing what is paid to the man who grows the vegetables.

In the case of asparagus, which harvests early, the average yield per acre is three and one-half to five tons at an average price of three and one-half to five cents per pound.

Beans, an early fall harvest, average four tons to the acre at an average price of one and one-half cents per pound.

Cabbage, a late fall harvest should bring three tons at \$12.00 each.

Pumpkins, full harvest, should yield seven to 10 tons per acre at an average of \$5.00 to \$7.00 per ton.

Rhubarb, he says, an early harvest, should produce seven to 10 cents and about 1 cent per pound.

Spinach, early harvest should yield five to nine tons at about two cents per pound.

Tomatoes should produce 10 to 18 tons at \$10.00 per ton.

The figures given were computed on Willamette valley conditions and probably would vary some as to harvest, yield and prices but he maintains the general average and ratio will prevail.

You protect your health and your pocketbook when you come to us for drugs.—La Grande Pharmacy.—Adv. 4-27-21.

#### Work on Suttles Lake Dam.

Culver, Or., April 27.—It is reported that shipments have been made of the necessary machinery to begin work on the building of the dam for the Suttles Lake irrigation district. The snow is likely to be gone from the site within another fortnight and if work then begins, it means a wave of prosperity for this section. This district is commonly known as the Grandview country. Harry Cheneweth is president of the board of directors, and George Young, of Bend, is the engineer in charge.

#### Much Snow at Lehman.

Will McCormmach, owner of Lehman Springs, and Frank O'Hara have returned from Lehman Springs, says the Pendleton Tribune. In making the trip up they struck four feet of snow at Granite Meadows and it was so firmly packed that the horses were able to walk on top for some distance finally breaking through. Here it was necessary to unhitch the horses and pull them out. Mr. McCormmach expects to return to the springs today or tomorrow.

#### Deported Immigrants Pass.

Thirty-seven immigrants of mixed nationality passed through recently on the O.-W. R. & N. on their way to New York. The undesirable included ex-convicts, prostitutes and anarchists picked up in Oakland, San Francisco, Bellingham, Tacoma, Seattle and Portland. They were accompanied as far as Huntington by J. L. Miller, traveling passenger agent. A special diner and tourist car was carried for their accommodation.

#### MORE MEN THAN WOMEN HAVE APPENDICITIS

Surgeons state men are slightly more subject to appendicitis than women. La Grande people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. THE INSTANT, easy action of Adler-ika is surprising. Putman Drug Store.

## Another Large Shipment of Coats, Suits and Skirts

#### NATIVES OF ALASKA.

Both Classes of Them Seem to Be of Asiatic Origin.

There are but two classes of natives in Alaska—Eskimos and Siwash Indians. Eskimos live along the northern coast line, while the Siwash is found in every part of Alaska.

The Eskimo is probably of Mongolian extraction, and the Siwash certainly is. In a mixed company of Siwash Indians and Chinese coolies, all dressed in similar garb, it would be impossible to distinguish one from the other by physical appearance alone. Likewise in speech the guttural tones are identical, and peculiarities of inflection and the unconscious little mannerisms of orientals and Siwashes are as strikingly similar as their physical characteristics. The Siwash vocabulary contains between 200 and 300 words—some villages using more and others fewer words, but all containing some words of oriental origin.

The language of all Siwashes was unquestionably the same originally, although at present the inhabitants of some villages are unable to understand the language spoken in others. The speech of these natives on the Aleutian Islands probably shows the widest divergence from the original of all the various dialects.

Many Indians speak Russian, and not a few speak the provincial idiom called Chinook, common in British Columbia, Washington and some other states.

All these Indians had a common origin, and that origin was in Asia before the continents divided at Bering strait. Siwashes frequently have red hair, and bald heads are not uncommon. Not so of the true American Indian. While Siwashes drifted far southward, even into California, none of them ever crossed the big barrier, as they term the Rocky mountains.

In every way except in occupation they are different from the Indians of the states. The Siwash turns his attention to hunting and trapping from necessity not from choice. He never hunts for sport—only for meat.—New York World.

#### You Know Him.

"Now, old fellow, I want to tell you my side of the whole case."  
"But I thought you had already told me."

"By Jove! So I did. Well, it won't do any harm to go all over it again."—Judge.

#### Tears of Recreation.

"Do you ever make your wife cry?"  
"Sure. I buy her matinee tickets to see every emotional actress who comes to town."—Washington Star.

Search others for their virtues and thyself for thy vices.—Fuller.

#### MAJOR TOMPKINS' TROOPS FIRED ON IN MEXICO.

Major Frank Tompkins. The advance column of American troops on the hunt for Villa under Major Tompkins was fired on when it passed through the town of Parral in the extreme southern part of Chihuahua, 400 miles from El Paso.

Dance to have been held in the city park tonight has been transferred to Honan Hall.

## WILLIE PEARE PUT ON BOARD

Wm. Peare, Made Member of State Optometry Board.

Governor Withcombe's appointment of W. M. (Willie) Peare, of the firm J. H. Peare & Son, to the state board of optometry reached La Grande today and Mr. Peare is now beginning service of a three-year term. Several unique phases develop in this appointment. Mr. Peare is probably the youngest optometrist to gain a seat on any board of that nature in the state, and the appointment lands the furthest east of any yet made. Usually the appointments have been bestowed upon Western and Southern Oregon or Portland optometrists.

The appointee to this responsible board was educated in his profession in Chicago, and for the past three or four years has been in business in this city, conducting a well equipped

optical "hospital" and has established for himself a considerable reputation among the optometrists of the state, he having for some time been a leading spirit in the state association.

Willie is being generously complimented on his appointment today.

Registered at the Foley Hotel.
