CARMEN IS ONLY GENUINE CHAPLIN FEATURE.

Four-Act Essanay-Chaplin Scream. Greatest Film Ever Produced by this Comedian. Is Released.

Charlie Chaplin's Burlesque on Carmen, Essanay's four-act feature, has been released through the V. L. S. E. and will be shown at the Arcade tonight and tomorrow.

It is the only genuine Chaplin feature to be had and is a scream of laughter from start to finish.

Every one in the country knows of this Chaplin comedy, and has been waiting to see it.

"Carmen," as all the world knows, is the classic tale of love and passion written by a Frenchman, and is so appealing it has been translated into

every language and made into a play and into an opera and finally into a photoplay.

The story is that of a young lieutenant who is sent into a Spanish province to stop smuggling which is costing the government thousands of dollars yearly. He proves adamant to bribes and is the despair of the smugglers. But Carmen, a gypsy girl, beautiful, alluring and unscrupulous, guarantees to make Lieutenant Jose see reason. He falls to her arts, betrays his trust and kills a brother officer, after which he joins the gypsy band.

The thing is so big it lends itself readily to burlesque. And Chaplin, as the smitten soldier, uses Edna Purviance and the situations made by the story to such effect the comedy is one continuous laugh. The situations aren't changed. But it is Chaplin as the "low brow" in the part that

makes it ridiculous. Edna Purviance is a beautiful, passionate Carmen, and Chaplin is a well-meaning and therefore extremely funny lover.

the artifice of the photographer and the pantomime of the clever girls who disport at their own free will on the sands, and dive and swim like sportive fish in the waters of the Pacific. There are a score or more of these impersonators of mermaids, nymphs and water-sprites. Miss Ida Schnall, renowned for her perfections of figure and her prowess as an athlete, swimmer and high-diver, leads the delegation of beauties who perform many and various diverting evolutions, while the cameraman has pictured their curves and graces. One of the greatest achievements in high-diving is shown in Miss Schnall's plunge into the Pacific from a height of 180 feet. Scenes in the Enchanted Forest are proportionately beautiful. The science of motion-picture illusion has developed some wondrously beautiful scenes; and with the backing of nature itself, to enhance the clever work of the producer, the outcome constitutes one of the most perfect examples of motion-photography that that has even been shown upon the screen.

Bliss Carman—Heaven is no larger than Connecticut.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
