

Protect Your Poultry From Lice

It is more economical and humane to feed chicken lice on a reliable louse destroyer than it is to feed your chickens to the lice. Lice destroy the vitality of fowls and make them easier subjects for cholera and other diseases.

LOUSE DESTROYER

is harmless to chickens, but it is guaranteed to exterminate lice. Poultry should be in perfect condition at this season, provided they are free from pests.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or
Bladder troubles you—Salts is
fine for Kidneys.

Meat forms uric acid which excites
and overworks the kidneys in their efforts
to filter it from the system. Regular eat-
ers of meat must flush the kidneys occa-
sionally. You must relieve them like you
relieve your bowels: removing all the
acids, waste and poison, else you feel a
dull misery in the kidney region, sharp
pains in the back or sick headache, dis-
eases, your stomach sour, tongue is
coated and when the weather is bad you
have rheumatic twinges. The urine is
cloudy, full of sediment; the channels
often get irritated, obliging you to get
up two or three times during the night.

To neutralize these irritating acids
and flush off the body's urinous waste
get about four ounces of Jad Salts
from any pharmacy; take a table-
spoonful in a glass of water before break-
fast for a few days and your kidneys will
then act fine and bladder disorders dis-
appear. This famous salts is made from
the acid of grapes and lemon juice, com-
bined with lithia, and has been used for
generations to clean and stimulate slug-
gish kidneys and stop bladder irritation.
Jad Salts is inexpensive; harmless and
makes a delightful effervescent lithia-
water drink which millions of men and
women take now and then, thus avoiding
serious kidney and bladder diseases.
