

TOOTH SAVING BRUSHES

A little difference in a tooth brush makes a big difference in results. Some brushes save teeth by thoroughly cleansing them, others betray teeth by leaving them unclean. An effective tooth brush must have right bristles, rightly arranged and trimmed. It pays to use good tooth brushes, they last longer and give better service. We have them from 10c up but recommend those costing 25 cents or more.

WE GUARANTEE THEM

If one of these 25-cent brushes sheds bristles or proves defective in any way, bring it back and get a new one.

Esra Meeker for Another Jaunt. Washington, May 12.—It was the same old "limousine" but a modern ox-less chassis, that the same old Esra Meeker, 85-year-old transcontinental traveler, hauled out of its shed here today to look over in preparation for Esra's fourth jaunt from coast to coast. Meeker calls his renovated vehicle a "schoonermobile."

It's all of that. The top is the same, label-covered prairie schooner top which Esra's oxen have dragged three times over the roads between here and the Pacific. Under it is an up-to-date, motor driven chassis. Within a few days Meeker starts for Olympia, Wash., a distance of 3,560 miles. Meeker is the original triple-exponent and proponent of a national, coast-to-coast highway. He expects to drive over once before Old Man Time gets him.
