Avoid Spring Colds.

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.

MISS GRACE CHILDERS,
MRS. JOEANNA MACLACHLEN.

Conductor Al Ray has returned to La Grande to again become a permanent resident. He was for a while on the main line passenger train, but decided that the branch line train is a much better proposition and will return to the old place. His place on the run between Pendleton and Huntington is taken by Conductor Norton who has had the motor car run below Pendleton. The latter place will likely be put up for bid, but in any case Conductor Ray will stay in La Grande.

Prof. George F. Gundelfinger Ph. D.—The universities seem responsible for much of the insanity existing today. The undergraduate departments are teaching lunatics, the graduate schools are breeding maniacs.

A real Guarantee

To be more than a mere "scrap of paper," a guarantee must be absolute—and backed by a concern able and willing to make it good.

The General's guarantee is not only absolute; it is backed by a business operating the world's largest roofing mills, and making one-third of all the roll roofing made in America. That's the guarantee behind

Certain-teed Roofing

The guarantee is for 5, 10 or 15 years, according to ply (1, 2 or 3). There is no evasion about it—no attempt to substitute a high-sounding something "just as good." There is no substitute for a real guarantee. You get an absolute guarantee on CERTAIN-TEED because the General knows that no better roofing can be made. Its raw materials and method of manufacture are both certified by the General's board of graduate chemists, and he knows he's taking no chance in guaranteeing them to you. That's what "CERTAIN-TEED" means—certified and guaranteed. Experience has proven that the guarantee is conservative, and that CERTAIN-TEED will outlast the period of guarantee.

The roofing felt, as it comes bone dry from the rollers, is given a thorough saturation of a special blend of soft asphalt, the formula of the General's board of expert chemists. It is then given a harder coating of another blend of asphalt. This keeps the inner saturation soft, and prevents the drying-out process so destructive to ordinary roofing. Roofing is impervious to the elements only so long as the asphalt saturation lasts. CERTAIN-TEED retains its soft saturation, and is in good condition for years after the harder, drier kinds have become useless.

CERTAIN-TEED is made in rolls; also in slate-covered shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.
