Twenty Three Per Cent Of Suicides  
In U. S. Due To Alcohol  
In the June American Magazine Dr.  
Edwin F. Bower says:  
"According to the United States  
mortality reports, twenty-three per  
cent of the suicides in the United  
States are directly traceable to intem-  
perance. Between 1900 and 1908, it is  
estimated, eleven thousand, nine hun-  
dred and eighty-six alcohol addicts  
died by their own hands."

**MODART CORSETS**  
Front Laced  
See and Feel Yourself in a  
MODART  
There is only one way to truly  
appreciate the style, comfort  
and poise of a MODART Cor-  
set, and that is to have a trial  
fitting.  
The designer of MODART Cor-  
sets is considered foremost in  
the world of corsetry. No other  
corset can claim his skill. Every  
designer originated by this style  
creator must meet his approval as  
an anatomist also.  
The result is a corset that gives  
you the satisfaction of the  
smartest style and the assur-  
ance of health and comfort. The  
MODART gives lines that are  
chic, distinctive, graceful, yet al-  
lowing free and easy respira-  
tion.  
It can be adjusted to the most  
minute requirements of individ-  
ual figure lines. It affords a  
gentle, uplifting support at all  
times.  
Health, comfort and fashion  
urge a MODART fitting.

OREGON BERRY COMMAND  
HIGHER PRICES.  
Cold Weather Hinders Rapid Matur-  
ity—New Spuds Lower.

Strawberry sales throughout the  
city fell off heavily Saturday when  
Oregon berries made their first con-  
certed appearance, and demanded 20  
cents straight. California berries are  
gone, and with cold weather general.  
Oregon berries are very scarce.  
There is little chance for the luscious  
berry to be down to 15 cents again  
until the weather warms up more.  
New potatoes have fallen off two  
cents, new cabbage one cent, while  
cauliflower, Tangermans, and egg  
plant are off the market. The week  
opens with asparagus higher, at 10  
cents straight.

**Meeting at Sweet Home.**  
Salem, Or., May 19.—"That a tremen-  
dous amount of interest has been  
aroused in public education through  
the plan of standardizing the four-  
year high schools by the state board  
of education, is shown by a report  
which I have received from W. L.  
Jackson, county superintendent of  
Linn county," said State Superintendent  
of Public Instruction Churchill to-  
day. "The Union high school at  
Sweet Home, Linn county, comprising  
the district at Sweet Home and a  
number of rural districts, has just  
completed the work of meeting all the  
caion, and Superintendent P.F.  
requirements of the state board of  
education, and Superintendent Jack-  
son reports that a community meeting  
was held there last Friday to cele-  
brate the standardization of the high  
school. Nearly 1000 people attended  
the meeting, the exercises consisting  
of a program by the school and ad-  
dresses by prominent people."

**Wonders Of Coal Tar Emphasized**  
In the June American Magazine Al-  
bert W. Atwood said:  
"Although modern high explosives  
require vast quantities of nitric acid,  
sulphuric acid and alcohol, the basic  
ingredient of most of these is a deriva-  
tive of coal tar, which in turn is a by-  
product of coke burning. Here has the  
industry with all its branches and  
ramifications which perhaps more than  
any other in the country has been ex-  
panded by the way in coal tar we  
have the imprisoned sunshine of mil-  
lions of years, and when that prehisto-  
ric brilliance is released by one set or  
stage of process we have modern dye-  
stuffs. Still other processes and we  
have naphthalene, (camphor balls) and  
many modern drugs such as aspirin;  
while the photographic, phonographic,  
and many other industries depend  
more or less upon it. Finally benzol  
which is the first stage in the process  
and from which all these other pro-  
ducts come, is the most immediately  
available substitute for gasoline."

**How To Look Well Dressed**

In the June American Magazine is  
an account of one of the most success-  
ful insurance solicitors in the country,  
who attributes a large part of his suc-  
cess to the fact that he always looks  
well dressed and prosperous.

"If you have only one suit of clothes  
keep that one suit cleaned and pressed  
all the time," he says. "Press your  
trousers every day if necessary. I  
have pressed my trousers lots of times.  
Keep your shoes shined.

"If you can afford several suits  
change off from one suit to another  
frequently and keep all of them spot-  
less and well pressed. I never wear a  
suit longer than the second day at a  
time, to change every day is better. It  
gives the clothes a chance to rest. I  
always hang my clothes on hangers  
the minute I take them off. It gives  
them a chance to come back into shape  
and the nap to come up again.

"It is a great economy to have lots  
of good clothes. A suit will last twice  
and three times as long and always  
look well if you keep changing off  
from one to another. Besides, people  
get tired of seeing a man in the same  
suit of clothes every day for a whole  
season."

**"Chamberlain's Tablets Have Done  
Wonders for Me."**

"I have been a sufferer from stom-  
ach trouble for a number of years, and  
although I have used a great number  
of remedies recommended for this  
complaint, Chamberlain's Tablets is the  
first medicine that has given me posi-  
tive and lasting relief," writes Mrs.  
Anna Kadin, Spenceport, N. Y. "Chamberlain's Tablets have done won-  
ders for me and I value them very  
highly." Obtainable everywhere.

**A Scientist's Plea For Early Marriage**

In the June American Magazine Dr.  
Alexander Graham Bell, inventor of the  
telephonette and now investigating the  
causes of old age makes the follow-  
ing plea for early marriage:  
"My investigation has convinced me  
that the opposition to early marriages  
is a very unwise thing, so far as long-  
evity is concerned," he declares. "As a  
general rule indeed a very general rule  
the younger the parents the longer  
their children live. In my analysis of  
the longest and most reliable genea-  
logy in New England I found two cas-  
es of mothers who being only six-  
teen years of age when their first-  
born came into the world had children  
who lived to tremendous old age."

**RECLAMATION WORK SOON**

Umatilla Project Will Get Appro-  
priation This Year

Hermiston, May 18.—During the  
coming summer, the United States  
Reclamation Service will spend con-  
siderable money on the Umatilla ir-  
rigation project near Stanfield. Propo-  
sals for construction have already  
been asked for.

The work involves the widening of  
about 20 miles of canal, the excava-  
tion of 168,000 cubic yards of material  
and the placing of 370 cubic yards  
of concrete.

The Cold Spring reservoir, which  
supplies the Umatilla project, is lo-  
cated a few miles northeast of Stan-  
field and the feed canal passes  
through this place.

**Rheumatism.**

**"LUG CHEWING  
A WHOLESOME  
HABIT**

In No Other Way Can You Get All the  
Richness and Flavor of the Leaf

**"SPEAR HEAD" BEST CHEW**

Many prominent physicians declare  
chewing to be the most wholesome way  
of enjoying tobacco.

"I began chewing some years ago,"  
said one, "and I soon found that it is  
the only way to get the benefit of all  
the rich juices stored up by nature in  
the tobacco leaf. I refer, of course, to  
the plug form of tobacco, which is the  
most natural and the cleanest form."  
"Chewing good tobacco like Spear  
Head makes the salivary glands more  
active, which in turn has a beneficial  
effect on the whole system. Add to this  
the sweet, mellow, delicious flavor of a  
chew of Spear Head, and you have  
the highest possible degree of tobacco  
satisfaction."

"I mention Spear Head because I  
have found that this brand is excep-  
tionally pure, being made in a fac-  
tory that's run strictly according to  
pure-food rules."  
Spear Head is made of sun-ripened  
Burley, which is acknowledged to be  
the richest, mildest, finest flavored to-  
bacco leaf in the world. And it is  
produced by the latest processes, which  
develop the quality and luscious flavor  
of the choice Burley to the supreme de-  
gree.  
A chew of Spear Head has a whole-  
some relief that is not found in any  
other chewing tobacco. In 10c cuts,  
wrapped in wax paper.
