MANY ERRORS DURING GAME

OFF-DAY PREVAILS FOR IMBLER-
ITES SUNDAYBad Luck Follows Players Even After
the Contest

Imbler, May 30.—Imbler went "down" to Elgin for a ball game and went "up in the air." The Indian valley boys got a break in the second, running in 17 scores in 3 innings, when very few men reached first base and no more runs were marked up. It seemed an off-day for Imbler, al-

most every player being marked up with from one to four errors; misfortune even followed the team part way home, two machines having to stop and repair blowouts.

Bell pitched six innings and Oliver two, but "Davy" Bleumestine retained his bowitching smile and pitched the entire game. In contrast with the game of May 21 was the fact that not near so many men struck out.

Score by innings:
Imbler... 1 2 3 4 5 6 7 8 T
Elgin... 0 0 0 0 1 2 0 0 3
Umpires: Tuttle and Glenn.

Mrs. H. McGoldrick is busy drilling horses and riders for the Union Stock show. She is planning to use sixteen, and if possible, twenty-four horses in the drill.

The Y. M. C. A. tennis court is now in working order and though there re-

mains some improvements and touching up to be done, the plant, on the whole is ready. The clay court seems to be well constructed. With heavy layers of cinders underneath the clay it is believed the drainage will be good. In any event it is firm and yet not extremely hard.

Members of the Y. M. C. A. who are members of the court association have already tried it out and pronounce it satisfactory. In the course of the next few weeks additional maintenance and improvements will be made with the idea in view of having a first-class court. Close proximity to the gym showers and its central location make the court popular. Secretary King, an adept with the racquet has been out to warm up on the new court. Members of the women's volleyball classes will break in the court for volleyball purposes during the present week, and the men expect to play on it when it becomes too warm in the gym.

DISEASED SEED TREATED

Government Working to Prevent
Spread Stripe Rust in Grain

Washington, May 26.—The Department of Agriculture is taking steps to prevent the spread of the very serious stripe rust of cereals (puccinia glumarum) recently found in this country, but thus far known to occur only west of about the 104th meridian. The Bureau of Plant Industry and the Federal Horticultural Board have arranged that no samples of seed collected in this area shall be distributed by the department to points east of the 104th meridian in the United States or to foreign countries, until all such seed has been inspected and if necessary given the following treatment. The seed is soaked five hours in water at 82 degrees Fahrenheit, followed promptly with a 10-minute immersion in water at 129 degrees Fahrenheit.

This regulation is considered necessary because the spores and living hyphae of the rust not infrequently occur within the outer layers of the seed tissue. Seed thus infected, when planted, may start centers of infection in the field or nursery and thus lead to the establishment of this destructive rust in localities where it is now unknown.

No effort should be spared, the cereal specialists say, to prevent the shipment of suspected seed out of the territory, where such seed is intended for planting. Wheat from the region under suspicion, when shipped for milling purposes, probably does not figure so prominently as a factor in the distribution of the rust, though no carrier can give absolute guaranty against the spread of the rust along the right of ways.

It is urged that all farmers east of the 104th meridian avoid purchasing for seed any wheat known to have been grown west of that meridian. County agents or other agricultural officers should inform growers of the danger likely to result from planting seed the source of which is not known to them. When it is absolutely necessary to ship seed out of the region in question, such seed should first pass through the hands of some person, preferably the plant pathologist or the state botanist, capable of passing upon its freedom from the rust.

Owing, however, to the practical impossibility of detecting infected seed in any samples subjected to infection, it is urgently recommended that such seed be given the above recommended thermal treatment as a possible means of preventing the development of the rust from infected kernels. Samples sent for examination by specialists should be mailed in containers, which can be hermetically sealed. These containers should be opened under conditions which make the distribution of any rust spores or rusted seed impossible. It is requested that officers of state agricultural experiment stations and other state agricultural officials give this matter special attention.

IMBLER FRUIT LOSSES SMALL

APPLEMEN PREDICT GOOD CROP
THIS YEARSan Francisco Realty Firm Invites
Visitors to Inspect Property

Imbler, May 29.—(Special).—Orchard owners are using the time between blossom and fruit time to do their spraying. So far, the frost has done very little damage to the apple crop.

Will Ruckman, Will Ledbetter and C. C. Welsh are enjoying an outing down in California at the expense of a San Francisco real estate firm, who hope to even matters by inducing the Rondo Valley ranchers to invest in California dirt.

I. A. Bingham and wife are spending a few days visiting relatives of Mrs. Bingham in Washington. Joe Kellum left for Butte, Montana, Saturday, to seek work in the mining region.

Work on the Hull house is progressing rapidly. The new part is inclosed and about ready for inside finishing. Mrs. Ed. Boylen and son, La Faun, of La Grande, came down Friday and spent the week-end at the home of Mrs. Sadie Connor.

The Squire garage is almost ready for occupancy. Fred Fox and wife are here from Union and will live with Mrs. Fox's parents, Mr. and Mrs. A. F. Wilson, during vacation.

Stites and daughter, Enterprise; A. D. Beckley, A. S. Archer, Portland; R. H. Kelly, Denver, Colo.; Ray Barkhurst, Geo. L. Breitling, J. U. McDonald, H. A. Vincent, Portland; A. S. Griffith, Spokane; John McKenzie, Lestine; J. W. Swanson, E. A. Swanson, Seattle; L. L. James, Frisco; Chas. Jasper, John Erickson, Spokane; A. C. Barnekoff, Portland; D. S. Pape and daughter, Toppensish, Wash.; Mrs. Dan Sommer, Helen Gleason, Elgin; M. D. Swift, Portland; E. D. Budge, San Francisco; F. H. Rhodes, A. V. Wells, Portland; Andrew F. Wade, Los Angeles; R. J. McKell, J. H. Moorfield, Portland; W. M. Parker, Oklahoma City.

Banquet Community Club Postponed

The banquet and program to have been given by the Elgin Community Club on the evening of June 2d, has been postponed one week, June 9th, relates the Elgin Recorder.

All the time the original date was set the fact that the dist. convention of the K. of P. was to be held in La Grande on that evening was overlooked. Many of the local Knights desire to attend both, hence it was deemed advisable to postpone the banquet.

PRISON REPRISAL HINTED

Salem Penal Institution Reported To
Be Voicing Protest

Salem, Ore., May 29.—Prison authorities are investigating the report that convicts were responsible for the recent fire in the flax plant as reprisal for Warden Minto's order restricting monthly allowance of tobacco and sugar. Minto denied threats had reached him, but admitted dissatisfaction at the order.

Rheumatism.
If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

WOMEN OF WOODCRAFT CIRCLE NO. 47—Meet second and fourth Tuesday evenings of each month at the Eagle hall. All visiting neighbors welcome.
LILLIE ALLSTOTT, G. N.
LOUISE HILARY, Clerk.

PYTHIAN SISTERS of Rowena Temple No. 9 meets every second and fourth Friday evening at K. P. Hall. MRS. LIZZIE HAYWORTH, M. E. C. LOUISE LANDRU, M. of R. C.
