

Modart Corsets
Front Laced.

"Most Any" corset won't do!

"Most any Medicine" wouldn't do if you were ill, would it? You want the particular medicine for your specific ailment.

And if you really care about having a good figure—about retaining your youth as long as possible—about increasing your grace and charm—then "most any" corset won't do either.

You want the particular corset for your specific figure needs.

Naturally corsets differ—in just the proportion that the abilities of their designers differ. So—to be certain of getting the best corset for your figure—it is essential that you select one created by a designer of known skill and reputation.

In the world of corsetry Jennings is generally accounted the foremost designer. He designs Modart Front Laced Corsets exclusively.

ROOSTER HURTS JOSEPH LADY

FOWL VICIOUSLY ATTACKS WITH BEAK AND SPUR.

Joseph News of General Interest to Observer Readers.

(Joseph Herald.)
Grandma Winston met with a serious accident Monday evening, which perhaps is the oddest and most singular ever heard of in the state. She stooped to get some eggs from a nest in the chicken yard when a huge Plymouth Rock rooster viciously attacked her, tearing several frightful gashes, one on her left temple half an inch deep and another on top of her head with his long sharp spurs. The blow knocked her down, and she almost fainted, but luckily the rooster did not continue the attack or she surely would have been killed. As it was she nearly bled to death before crawling to the house and a doctor arrived. Dr. Mount says he never saw wounds of that size bleed so terribly.

She has not fully recovered yet from her injuries received last winter by falling on the ice at her home, but is enjoying fairly good health for a woman of her advanced age—91 years.

COPPER STRIKE PROMISING

Joseph Man Locates Ledge With Apparent Richness and Size.

One of the greatest copper strikes ever made in Eastern Oregon has just been found by Frank Stevenson on his place less than three miles due south of town.

Almost by accident Frank discovered some very rich copper ore in the edge of the timber on the mountain side about a quarter of a mile from his ranch house. He began digging and was astonished to find that there is a mountain of ore that assays something like \$38 to the ton in copper, and a ledge six feet wide that assays several times this much.

Only a couple of feet of earth covers the ore, which can be quarried out instead of the more expensive work of sinking or tunneling—the usual system of operating mines.

Frank lost no time in staking out several claims and no doubt a number of other claims will be filed at once, as the rich discovery has caused in-

tense excitement among our people. Joseph stands an excellent show of becoming one of the world's greatest mining camps, as this last discovery, if properly developed, should make Joseph a great mining city equal to Butte or Cripple Creek within a few years.

Denver capitalists who recently secured a bond or lease on the Don Carlos copper property on the west side of this same mountain, 5 miles from Joseph, expect to begin active operations about July 1st with a large force of men.

Expert mining men predict that the richest and most extensive copper mines in the world will be in operation here within a few years—excelling even the great copper mines of Montana, Michigan and Arizona, where many thousands of men are employed.

Wallowa County Man Drowns.

Word has just been received that George Freeman, an old gentleman aged 72 years, who had been in the employ of Bige Arnold on one of his sheep ranches on Little Sheep creek, was drowned in that stream on Thursday of last week and that his body was found Tuesday in Big Sheep creek at the Jack Johnson place half mile from where that stream empties into the Imnaha and about two miles from where he was drowned, says the Joseph Herald.

It is impossible to get any particulars except that the old gentleman was alone on the ranch and it is supposed that while attempting to cross an old rotten foot-bridge it broke, throwing him into the water, which at this season is always very high and swift.

Mr. and Mrs. Freeman came out from Oklahoma two years ago. Last fall Mrs. Freeman went to Rochester, Minn., where she had an operation performed on her head by the noted surgeons, Mayo Bros. From there she went to her former home in Oklahoma and she and their three daughters expected to arrive here this week to join the husband and father. Two daughters reside in this county—Mrs. Bob Roark of Divide and Mrs. Tom Adams of Marr Flat.

Later, the body was brought to Joseph last night (packed in ice) and Coroner Haisten of Wallowa is expected to hold an inquest. We have not learned when and where the burial will take place, but it will likely be in charge of the Masons, of which order he was a member.

Chicago Opens Municipal Beach.

Chicago, June 1.—Chicago's biggest playground, 25 miles of Lake Michigan front, came into its own today when 60,000 bathers went to the beaches for the grand opening. The great new municipal pier, which stretches for nearly three-quarters of a mile into the lake at the foot of Grand avenue, began its first season today. Aquatic sports of every sort—yacht, canoe, boat races—were planned for the dedication ceremony. The recreation end of the pier will be given over all summer long to dances, band concerts and other festivities. The pier will be the starting point for the small steamers running to the north and south parks of the city. The lid was off today on bathing suits. Short skirts—cannibal style—for the men and no stockings, no skirts for the women marked the official style.

Better Houses for Workingmen.

New York, June 1.—The Immigrant Housing Competition organized last

month at the residence of Mrs. Vincent Astor, to inaugurate a propaganda for better homes for immigrant workmen closed today. Prizes will be given for the best plans. The first competition calls for a substitute for the freight cars used to house construction gangs along railroads. The prizes include \$300 for first, \$200 for second and \$100 for third. It is to be succeeded by a series of public exhibits in New York and elsewhere, which will include not only the results of the competition but any housing plans now in operation. There will be a second competition

for plans for a house for a single family requiring two bedrooms; a house for a family with four lodgers, providing for the separation of the lodgers and the family, and a boarding house for thirty single lodgers, two lodgers in each room.

Editors Get Tips on Editing.

Madison, Wis., June 1.—Wisconsin editors of dailies gathered here today for a three-day conference on "how to print and publish a better newspaper."

"WE were so pleased with that first can of Barrington Hall that we are going to use it right along."
"Remember, in making it, to measure less coffee per cup, as it goes much farther than other coffees."

Barrington Hall The Baker-ized Coffee

For drip or filter pots order PUL-VO-DRIP Barrington Hall in RED TOP CANS.

Barrington Hall Coffee is not sold by peddlers or catalogue houses. Buy it from your grocer.

In addition to the delicious flavor and healthfulness of Barrington Hall, Baker-izing also results in economy.
