Mr. Edison says there will be no poverty in a hundred years. There certainly won't be any for us.

WARNING IS ISSUED.

Danger of Serious Accidents at Fires Cited by Officials.

To the Public:—It is with some serious concern regarding the welfare of the City of La Grande that the undersigned desire to make an emphatic protest against the wild, inconsiderate and reckless display of speed made by the automobiles on the occasion of every fire alarm in this city.

It is almost impossible for the Fire Department and the members who are compelled to make all necessary speed in order to reach the fire to make decent headway along the streets on account of the numerous machines and bicycles heading for the fire. It is really miraculous that there are not a number of people killed on the occasion of every fire alarm in La Grande. The time has come when there should be put a stop and a serious regulation to the speed of all machines and vehicles attending fires. If this evil is not soon remedied, some movement should be immediately made in order that a strict regulation be enforced.

This brief letter is intended as a fair warning to all speed violators and we trust that those whom it affects will give it the respect to which it is entitled.

Yours for service,
 C. L. MACKAY, Chief of F. D.
 J. C. ARDREY, Chief of Police,
 PAT FOLEY, Capt. Vol. F. D.
