Who Want It The Union Republican states that John Minnick would like to wager with some one that he can drive his big traction engine a mile, moving start, pull the separator and set and start in twenty minutes. Mr. Minnick would like to make this demonstration during stock show, and has \$100 to invest in the proposition.

Telephone It

Why waste time and energy when a telephone will save both.

The greatest amount of work accomplished correctly, with the least amount of energy, in the shortest possible time is—EFFICIENCY—

A Telephone will do this. See us about it.

WHY did daddy go 'way without drinking his coffee? "The grocer sent us the wrong kind by mistake." "What did you let him know it for?" "I didn't. Your daddy always knows the difference without being told. He likes

Barrington Hall The Baker-ized Coffee

For drip or filter pots order PUL-VO-DRIP Barrington Hall in RED TOP CANS.

Barrington Hall Coffee is not sold by peddlers or catalogue houses. Buy it from your grocer.

The Barrington Hall flavor is different. It is singularly superior to the flavor of coffees not Baker-ized. PATTISON BROS. GROCERY

THREE BAKER WOMEN HURT

AUTO PARTY COMES TO SERIOUS GRIEF.

Several Women Pinned Under Upset Car for a Time.

Baker, June 6.—Three prominent Baker women, Mrs. O. W. Decker, Mrs. E. A. Whittier and Mrs. John Shelton, were injured seriously, Mrs. Decker perhaps fatally, City Commissioner E. A. Whittier sustained a badly sprained wrist and Norma, the five year old daughter of Mr. and Mrs. H. G. Hyde, suffered severe bruises when the car driven by Mr. Whittier, deflected from its course by a dust heap on the road near the Tom Hewlett place in Lower Powder, 22 miles from Baker, turned turtle at 1 o'clock this afternoon.

Mrs. Whittier and Mrs. Decker were caught under the edge of the car, the little girl was thrown clear and the rest of the party were caught in the hollow formed by the seats.

Mr. Whittier succeeded in crawling from underneath, and with the assistance of passers by lifted the car.

Mrs. Decker was unconscious and only partly recovered late this afternoon after being brought to St. Elizabeth's hospital.

Mrs. Shelton and Mrs. Whittier are both badly bruised, the danger to the former, who is the mother of both Mrs. Whittier and Mrs. Decker, being because of her age, which is 75.

Mr. and Mrs. Hyde and C. C. Shelton, a son of one of the injured women, were in a car following, the entire party returning from Eagle valley where they had visited over the weekend at Mr. Whittier's ranch. The second car was too far behind to offer any assistance until after all immediate help necessary had been given.

A telephone call sent in from the Hewlett ranch, brought W. H. Ellis in his machine to the spot on record time, and with some of the injured ones in his car and the rest in Mr. Hyde's auto, Baker was reached by 2:45 o'clock.

The car was badly damaged, but in the haste of taking care of the victims of the accident, the damage was not appraised.

Mrs. Decker was the only one of the party to be taken to the hospital, the rest remaining at the Whittier home on Main street. Physicians held out hopes for the recovery of Mrs. Decker, unless internal injuries develop and did not believe that there was any grave danger for the others.

Mrs. Whittier is 52, Mr. Whittier 60 and Mrs. Decker 54 years of age.

Baker Man Lost Three Days.

Baker, June 5.—How Elton Olson of this city, now employed by the Baker Mines Co., at Cornucopia, lost his way while on a fishing trip, wandered through the snow for nearly three days, and was reduced almost to the point of starvation before he was found by a search party, was learned here today.

It is reported that Olson, in company with Will Gardner, also of Baker, took a layoff to go fishing on Clear creek and all went well until a fragment of snow broke off letting Olson into the creek, together with the lunch, which he carried. The two then started home but disagreed on the direction and set out in different directions Gardner arrived safely but Olson failed to appear.

The next day a searching party was organized but after hunting for him all day failed to find him, although they ran across his tracks several times in the snow, which still lies six to eight feet in many places. The day following after tracking him all day, a party of four overtook him about 20 miles from camp. He was still going in the opposite direction, sometimes crossing his own trail. He had no idea where he was going, it is said. He had had nothing to eat since starting out and ate ravenously of the lunches which the searchers carried. In his travels he was compelled to climb a tree to escape from a brown bear, which he feared might be as hungry as himself. He also saw two more in his rambles.

He had no matches or even a knife with which to help himself, but was forced to eat buds, which he explained after he was in camp, he had read about.

LADDER USED ON CAMELS.

Greek Dentist Impressed by Turks Reports Progress.

New York, June 5.—The joys of life in Constantinople during war times are described in a letter received here from an English woman who says that she has been cut off from the world since she went to Constantinople in September, 1914.

"The Turks have taken all the Greek dentists and made veterinary surgeons of them," she wrote. "One dentist was given six camels to care for and, not knowing that they would kneel, ascended them daily with a ladder. After a few days a friend asked him about them.

"Fine," he answered. "Four of the camels have died and I hope to see the others go within a few days."

Look for Early Settlement.

Portland, June 5.—En route to San Francisco to confer with shippers, J. A. Madsen, secretary of the longshoremen's union, predicted a settlement of the strike Wednesday. He said the strikers demands will be granted almost bodily.

ECONOMY MOVEMENT FAILS

British People Spend as Usual and Food Prices Soar.

London, June 5.—Official figures which show that since the war began there has been an average increase of 49 per cent in the price of foodstuffs in England suggest the failure of the economy movement, designed to impress upon the nation the obligation of being thrifty in the consumption of food, so as to curtail imports and keep down prices.

The purchasing power of a pound (\$5) is now but a trifle more than \$2.50.

Compared with both a year ago and two years ago there are large increases in the imports of grain and flour, meat and suitable articles of food.

CATERPILLAR CURE GIVEN

Nests May Be Burned, but Spray Is Regarded Safer.

Washington, June 5.—This is the season when the larvae and small nests of the tent caterpillar are likely to be found on orchard and other trees. With the first warm days of Spring the larvae escape from the eggshells in which they have lain dormant during the winter. Trees infested with larvae during the early part of the year, or those in the immediate vicinity, are perhaps more likely to be chosen by the parent moth for the deposition of her eggs.

The recommendations of the United States Department of Agriculture's entomologists, for the control of this pest are, briefly, as follows:

As soon as small nests are detected they should be destroyed. When in convenient reach, the nests may be torn with a brush, with gloved hand.

Union, Bank Grows.

The First National bank is steadily forging ahead, says the Union Scout. Today the deposits show \$216,000 which would indicate that not all the money is out of the vicinity. The bank carries loans to the amount of \$210,000 with cash on hand, \$25,000 and \$53,000 worth of government bonds. In the volume of business this institution is the third in the county and the greatest outside of La Grande. The country is evidently prospering.

Hopes for Earthwork Completion.

Baker, June 5.—Completion of the earthen "toe" of the Balm creek dam, which will allow the reservoir of the Thief Valley Irrigation project to remain filled while the height of the dam is being increased, is hoped for this summer by J. A. Almiral of New York, head of the project, who is in the city after an inspection trip to the dam with W. A. Stewart, resident engineer. Mr. Almiral is now working out cost data, on which will depend to a large extent the amount of work to be accomplished this summer.

He stated this morning that on account of the high prices of material, not as much might be done this summer as had been planned a year ago. He was highly pleased with that part of the dam which has already been erected, a test recently made showing it to be absolutely water tight.

Mr. Almiral believes an added impetus will be given the project by the land banks bill passed on favorably by both Senate and House. "The final sanction needed to make the bill a law, would be very beneficial to us," he added. "It would mean that ranchers would be able to secure land on much more reasonable terms than is now the case, and in consequence irrigable lands would be put under the plow much more rapidly."

Ashland People Come to Festival

Ashland, Or., June 2.—Many Ashland people will leave tomorrow and Sunday for Portland to attend the Rose Festival. E. V. Carter, president of the First National bank, leaves Saturday with a party of friends by automobile for the Rose City. Several other automobile parties will make the trip and a number of citizens will go down by train.

Will Investigate the Reservation

David Hibbert, of North Union, is preparing to go to the Uintah reservation in Utah soon, and will investigate the lands of that reservation, which is to be opened for settlement. The section where Mr. Hibbert is thinking of securing land is about eighty miles from a railroad and reported an excellent country with plenty of water.—Republican.

Couple Wedded for Third Time.

Paris, Ill., June 3.—Matthew Ross, 77, and Lucretia Ross, 72, have been married for the third time to each other. Their marriage ceremony was performed by Justice Davis, who, it is believed, will be able to lay claim to the distinction that he married the couple "the first and last time," having tied the first knot for them almost 40 years ago.

Modart Corsets Front Laced.

"Most Any" corset won't do!

"Most any Medicine" wouldn't do if you were ill, would it? You want the particular medicine for your specific ailment.

And if you really care about having a good figure—about retaining your youth as long as possible—about increasing your grace and charm—then "most any" corset won't do either.

You want the particular corset for your specific figure needs.

Naturally corsets differ—in just the proportion that the abilities of their designers differ. So—to be certain of getting the best corset for your figure—it is essential that you select one created by a designer of known skill and reputation.

In the world of corsetry Jennings is generally accounted the foremost designer. He designs Modart Front Laced Corsets exclusively.
