It's a Riot

FATTY and MABLE ADRIFT

This is absolutely the most ripping, roaring, riotous comedy Keystone has yet produced. You can't help shrieking with laughter at the comical antics and thrilling experiences that are flashed on the screen, and the dog—but then see it for yourself and be convinced.

M. S. Levy will exhibit 100 head Shetland ponies.

The race course is all in order. A special parking for automobiles has been prepared.

There is a special committee for the sports and one for the races so there will be no drag during the day. Events will move rapidly.

A hospital is ready in case of accident and two doctors and two nurses will be on duty.

Mr. Butterfield is the busiest man on the grounds. He places and houses all the stock brought in.

There has been an increase built in the bleachers to hold at least 500 more people.

Following the show on Saturday will be an auction sale of registered stock. This will add to the "attraction" of the show.

In speaking with such men as Hunter, McKennon, Leadbetter and John Wells I find that they are loud in their praise of this year's show and many have said that as the weather is so good and the roads in such splendid condition, a big crowd and a fine time is anticipated.

A carnival is in town, as an additional feature.

Mr. Vogel is everywhere at once. He seems to be the busiest man on the place.

G. S. Levy's Kentucky saddle horse will be a feature this year. This horse was exhibited in La Grande a short time ago.

The barns are overflowing and people are seeking accommodations at private residences.

L. G. Terry of La Grande will exhibit his registered stallion Yakima. This horse was recently bought of R. W. Loundagin of Waitesburg, Washington. Mr. Loundagin has been a breeder of thoroughbred stock for many years. It would be interesting to learn that Mr. Loundagin recently received \$500 for a two-year-old stallion. This horse is one of the most promising saddle stallions in the Northwest and will be shown in the Spokane-Lewiston fair. Mr. Terry has recently returned from an extended trip to the East. He says that last year was one of the best years for the selling of coupes, buggies, etc. For pleasure the horse is again coming "unto its own" and at a sale of fine saddle horses, held in New York the lowest price was \$400.

WALSH IS BOOMED.

Montana Senator Has One Serious Handicap—He is Westerner.

St. Louis, June 14.—Senator Walsh of Montana, has appeared as a strong possibility as a Supreme court justice to the vacancy created by Hughes' resignation. Many colleagues are urging his appointment. The chief objection is his residence in a far western state.

A Rare Treat.

The Arcade management has completed arranging an interesting treat for their patrons. From today on, for a limited time, pictures of every baby in La Grande and vicinity, five years of age or under, will be taken free at the Towne Studio, 111 Elm street. Beginning Wednesday, June 21st, the pictures of the babies so taken will be shown on the screen at the Arcade. These pictures will all be of the

babies we know and see every day and will certainly be interesting.

The slides will be made in unusual poses, positions and dresses. If there is a baby in your home you should be sure and take advantage of this opportunity to see it pictured on a "movie" screen.

Several attractive prizes will be given to the babies whose pictures prove most popular. This is a genuine offer, backed by the Arcade management, and those having their children photographed will not be embarrassed by requests to pay for any of the expense of having the baby pictures made. It is all free and should prove a rare treat. Ask about it.

Three hundred and twenty-five railroads went through the last fiscal year without a single fatality to a passenger in a train accident. This "safety first" campaign has amply justified itself.
