

WE GREET YOU

AND

MAY OUR CHAUTAUQUA CONTINUE TO GROW IN THE FUTURE AS IN THE PAST

For 28 years the Grande Ronde Lumber Company has been busily engaged in manufacturing lumber and building materials. During that time we have had some of your retail business and have deeply appreciated it. In order to make greater convenience for the consumer as well as ourselves we have lately inaugurated a complete yard in La Grande where all building materials are sold at retail and the closest possible prices are made to those contemplating building.

Our retail plant is located in the old Wenaha Lumber Company buildings and we are situated to give you good service and quality.

We carry a complete stock of all building materials. Have 20,000,000 feet of seasoned lumber to draw on to fill your orders. No order is too large and none is too small to claim our full attention and appreciation.

Our Coast Fir line is complete as also is our line of Malthoid Roofing and building papers. You can get hardwood for the floors of us and fancy or plain brick or tile for the fireplace.

We stand ready to convince you that owning your own home is the best investment you can make. Come in and talk over this most important question with us.

We have dry chain wood which we deliver at \$3.50 per load, and the green chain wood at \$2.50. Try us once for service.
