

We Are a HOME INSTITUTION

It is with a feeling of greatest pride and satisfaction that we say in all candor "We are a Home Institution," for we are of La Grande and Union County, and we are also a Home Institution from the further fact that we assist as best we can in enabling every worthy person to have a home of his own.

The new modern La Grande has very largely been built with lumber from our yards and we are gratified to know of no dissatisfaction. Yes we have tried to do our part, and in the further development of La Grande and Union County we stand ready to serve as we have in the past, with the best of Lumber, Shingles and all kinds of Building Material.

Our retail department is always at your command.
