Autos for War Vessels
Washington, July 3.—Armored automobiles cradled on the decks of warships, in sea-going rafts, for use of detachments of the United States Marine Corps in shore operations, may soon be added to the regular equipment of naval vessels.

they occupy is very little. United States Marines found great need for armored cars in their recent operations in Mexico, Hayti, and Santo Domingo, but the cars they used had to be shipped to them by regular naval transports.

Experiments at the Boston navy yard a few days ago demonstrated that these indispensable cars can be stowed aboard by the means of electric cranes on war vessels, in a very few moments, and that the deck space

London—The government's tax on matches has revived use, on a great scale, of flint-and-steel lighters which are shipped to England, principally, from Holland.

ARCADE

Novel Scenes About in "The Green Swamp."

There are several novel scenes introduced in "The Green Swamp," the new Ince-Triangle play, which will be shown at the Arcade theatre tonight and tomorrow. There is a grand masked ball, which shows society people amusing themselves in an unconventional way. Instead of the conventional dresses and stunning gowns, hundreds of men and women one step and fox trot in costumes of all nations and all times and classes. An element of comedy enters when Margery (Bessie Barriscale) discovers her husband, Dr. Allison (Bruce McKae), in spite of his disguise in an Oriental costume of robes and baggy trousers and rushes up to him, pouring out her reproaches for his perfidy in dancing twice with the same woman. They both are so excited that they tear off their masks and gesticulate furiously.

Another scene full of intensity shows the woman sitting in the waiting room of her husband's office. She writhes with jealousy as she hears a woman's laughter within and finally can contain herself no longer. She suddenly throws open the door to find her husband playing with a child whom he had just treated and the mother laughing with relief and joy at the sight of her child's happiness.

All the suspense that waits on a critical operation is shown in a scene in an operating room. The surgeon is bending over the patient with his scalpel in his hand and performs a delicate incision in the skull to conquer the deadly enemy, lockjaw. Outside the door the young wife of the patient is wrestling with her jealous fears not knowing that her husband's life lies in the balance and that her sudden entry might so disturb the surgeon that his knife might slip and cause disaster to the man who is dearest to her or will she put temptation under her feet? For a moment that is full of human interest and intense suspense this scene can't be surpassed.

IRON HIGHER IN GERMANY.

Scrap Paper Also Increases 400 Per Cent in Value.

Stockholm, July 5.—According to news from Rhenish Westphalia, iron prices are still high and are rising. The Hoop Iron Syndicate has raised its charges from 200 to 225 marks per ton for metal for home consumption. Iron plates, from 1 to 2 millimeters in thickness, are much in demand as a substitute for other fine metal plates. 300 marks per ton being freely paid, a price never hitherto contemplated. Bar iron of ordinary quality for home consumption has now risen to 195 marks. The operation of the decree prohibiting sales for export has been extended by four weeks, and the Bar Iron Syndicate has decided to suspend sales for home consumption.

The great scarcity of paper is indicated by the fact that waste paper has risen 400 per cent in value. Paper which can be delivered promptly finds buyers at enormous prices.

Marines in Battle

Washington, July 3.—Three American marines wounded and one killed in fighting with revolutionists at Santo Domingo, the navy has announced.
