### ARCADE

"The Price of Power" Stirring Labor Play.

A remarkable play is "The Price of Power," the Fine Arts-Triangle production, coming to the Arcade theatre Sunday. It is full of realism in showing a modern cotton mill in full operation and a strike in which brickbats and clubs figure. There is also a thrilling struggle between a worthless scion of an idle rich woman and a beautiful factory girl. There is such swift action in the play and it is so lightened with touches of humor that any too intensely tragic feature is made endurable and the whole effect is appealing and worth while.

Orrin Johnson plays with versatility three different roles, representing the same man under different circumstances and at various times in his career. Gladys Brockwell is realistic in her characterization of the factory girl who wins the ambitious young mechanic by her forward appearance and physical charms. Vera Lewis as the wife of the magnate makes clear the shallow, frivolous nature that spoils her son and forgets her husband as soon as he is out of her sight. Spottiswoode Aitken is cast as the aged father of a working girl. He shows the fiery spirit of the old workman, who stirs up the men

### SHERRY'S

At Sherry's Tomorrow.

Harold Lockwood and May Allison, the popular Metro-Quality stars, will be seen on the screen here at Sherry's tomorrow in "The Masked Rider," a thrilling five-part production of mystery, romance and adventure. They are surrounded by a strong supporting cast, including Lester Cuneo, the well-known heavy leading man; John MacDonald, Howard, Truesdell, Harry Linkey, Harry Berkhart, H. W. Willis and Clarissa Selwynn.

The story of "The Masked Rider" is laid in the mountains of North Carolina, where most of the scenes were photographed. Through special arrangements the Metro players were given permission by the government to use a deserted moonshining still and rendezvous for some exciting scenes. The old Bat Cave Inn also figures prominently in this feature.

Mr. Lockwood is seen at his best in "The Masked Rider." He is given unlimited opportunity to display his prowess and horsemanship in a score of sensational situations. Miss Allison as the mountain girl, is thoroughly at home in her part, for she is in reality a daughter of the southland. One of the spectacular scenes in the production is the dynamiting of an underground hiding place of a gang of desperate moonshiners.

#### MOVIE NEWS.

Frank Alexander, a Union County boy and whose father was for several years in business in Imbler, is pushing to the front rapidly in movie realms. While living in Portland Frank signed up with the Keystone people but the first of July he transferred to the Fox Film Co., a new company and receives the handsome salary of \$75 per week as a starter. Alexander tips the scales at more than 300 and no doubt will make a hit with movie fans. His father is spending part of the summer in Imbler and appears to be highly pleased with his "little boy."

William Farnum thinks he is the only actor in moving pictures who has the distinction of having been born on the Fourth of July.

"I'll bet Geo. Cohan would be will-

ing to start all over again to be able to say that," Farnum said in telling of it. "The year was that of the Centennial celebration, so you see the 'spirit of '76' was mixed up in it, too, so, if I am not a patriotic, blown-in-the-bottle Yankee, I am nothing."

There is no limit to a screen star's ambition. Ann Pennington, now a star on the Paramount program, wants to be able to act like Sarah Bernhardt and have money like Harry Lauder. Her first part on the screen will be that of Susie Snowflake in the Famous Players production of the same name.

Little Billy Jacobs, the five-year-old child actor, who scored such a success with Marie Doro in the Lasky production of "The Heart of Nora Flynn," has been engaged to play a part in support of Victor Moore in "The Clown," under the direction of Wm. C. De Mille. Immediately upon conclusion of "The Clown," Mr. Moore will start on another production.

Sunday School Teacher—Can any boy tell me what comes after the Acts?

Tommie—The pictures used to, but now they are the whole show.—Reel News.

Viola Dana, tiniest of Metro stars, is a city girl for the first time in her life. She has had country air to breathe and country milk to drink all her girlhood, which may be one reason for her excellent health. She thinks the city is perfectly fascinating. "I love it," she says, "because there are so many moving picture theaters."

HAROLD LOCKWOOD in THE MASKED RIDER.

Geraldine Farrar and her husband, Lou Tellegen have gone to California where the grand opera star will resume her motion picture work for the Jesse L. Lasky Co. at Hollywood, Cal. Miss Farrar has leased Blanch Ring's home near the Lasky studios for the summer and states that picture work in the summer is a vacation compared with the idleness of winter in New York. Lou Tellegen first met Miss Farrar in the Lasky studios.

Louise Huff, who has just joined the Famous Players forces, went to Block Island to get the proper locations for her first picture, which will appear shortly on the Paramount program. While down on the shore she decided to rush the season a little and to take a plunge into the sound. It was probably the briefest dip that was ever recorded since the invention of salt water. Eye witnesses declare that Miss Huff dove into the water, but by the time she had been submerged "down" to her waist she decided to come out and back water so vigorously that her feet never got wet at all. This is branded as a falsehood by Miss Huff.

"What would you call an attack on three policemen by one man?" Stuart Holmes, the Fox villain, asked. "An assault," his friends replied. "Why not an attack of the blues?" asked Holmes, who is neutral.

#### Association Closes Convention

New York, July 8.—The closing of the National Education association convention here today were held by the Child Hygiene association and the national conference for extension education.

D. P. MacMillan, director of the department of child study in the public schools of Chicago, in an address showed how the correction of physical defects increases the rate of promotion of school children.

D. B. Armstrong, director of the department of social welfare of the New York association for improving

the condition of the poor insisted that medical inspection of school children, school feeding, sanitary conditions in the home and other forms of preventive medicine, are the best forms of community investments. More than thirty thousands teachers were enrolled at the fifty-fourth annual session of the association.

By Order of the Commission, LEE WARNICK, City Recorder.

# Mr. Car Owner!

Does 60 per cent Saved  
Look Good to You???

We absolutely guarantee this saving by using DISTILATE with the Leist Gasifier on your car. This device simply takes the moisture from the radiator carrying it over the manifold through tight-fitting coppered stove lined with asbestos when it is superheated; then to the carburetor where it makes a complete combustion using approximately 98 per cent of your distillate.

The following reasons will tell you why you should use the Leist Gasifier:

- 1.—Distillate costs about one-half as much and gives more power and miles per gallon.
- 2.—Distillate when used with the Leist Gasifier will not carbonize your motor.
- 3.—Does not interfere with the use of gasoline, in fact, will save 25 per cent.
- 4.—Moisture is supplied to the cylinders which prevents any carbon deposits either from fuel or oil and positively keeps clean the cylinder walls, pistons, spark plugs, valves and valve stems.

Official Test made with a Ford car equipped with Leist Gasifiers showed the following mileage: Gasoline 21 miles, Distillate 35.2 miles.

Can be installed by any motorist or garage.

Showing Ford Motor equipped with a Leist Gasifier.

This car has run over 2500 miles under adverse conditions at a fuel cost of less than one-half cent per mile.

Price for Ford Cars ..... \$5.00 prepaid    Price, installed ..... \$6.00 prepaid  
Price for Dodge, Maxwell, Overland, Studebaker, 4 and 6 of 16 cars ..... \$7.50 prepaid

## GOWN LIKE WOMEN WORE IN THE OLDEN DAYS IS FAVORITE OF MOVIE STAR

A gown built along the lines of the gowns worn in the olden days is the favorite of Edna Mayo, movie star. In this picture Miss Mayo is shown in a Lady Duff Gordon model with a bodice, which is of pale blue taffeta and shadow lace. A chartreuse green satin bow is fastened on the bodice with streamers. With it, Miss Mayo wears a new styled leghorn hat with pale blue satin streamers.
