

K. C. TEAM HERE TUESDAY

LA GRANDE FANS TO WITNESS FAST CONTEST.

J. G. King, Y. M. C. A. Secretary,
Joins With La Grande Nine.

Tomorrow's baseball game at the fair grounds between the Kansas City Red Sox and the La Grande team promises to not only see the fastest local organization mustered together this year but will introduce the classiest bunch of ball players from "foreign soil" that will be the lot of fans to see in some time. The game begins at 2:30.

"Y" Secretary to Play.
Manager McInnis has strengthened his infield by the addition of J. G. King, Y. M. C. A. secretary who has a long and brilliant career as a baseball player. Mr. King will play either second or short. Carl Evans will catch, Eddie Ford and various other veterans will appear in the lineup. It will be a bang up game, of that there is no doubt.

The admission is placed at 50 cents as the expense of signing up the visiting club is heavy. The game will unquestionably be worth it as the K. C. Red Sox have demonstrated themselves to be a hummer team everywhere they have played. Usually they play with Class B and C organizations and in a big majority of cases win their games.

Elgin put a strong grip on the championship of the Valley league yesterday when she beat Cove at Elgin 9-6. The standing of the league now is:

Needy Families to Get Aid

Walla Walla, Wash., July 7.—Tomorrow has been designated as Company K day in Walla Walla, at which time 50 committees, of three men or women each, will canvass the city for cash subscriptions for the relief of families dependent on members of the local militia company, now on its way to the Mexican border. Spot cash donations will be accepted, but it will be the aim of the solicitors to secure pledges of monthly payments into a relief fund to be handled by the military committee of the Commercial club. There are 18 families, including wives, small children and widowed mothers, needing immediate help.

A movement is now being started to organize a field battery of artillery here, to consist of 170 men, war strength, in accordance with the request of Adjutant General Thompson, of the militia, who has received war department orders to complete Washington's complement of militia organizations.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purpose for which it is intended. Buy it now. Obtainable everywhere.—Adv.

2 DETECTIVES LAND BOOSE

PENDLETON GETS RID OF BLIND PIG.

All Suspicious Joints in Roundup
Town Closed Tight.

Pendleton, July 8.—What is thought to have been one of the biggest bootlegging joints in Pendleton was uncovered yesterday in the arrest and conviction of T. D. Elliott. Elliott was arrested yesterday through the efforts of Detective Priest.

Priest gained the acquaintanceship of Allen Anstey Wednesday and sought a drink from the young man. Anstey said he knew where he could get it and, Thursday night, Anstey went to the shack of Elliott, down on the river levee between Cotton wood and Johnson streets and procured the whisky. During the transaction, the door was left open and Priest was able to witness the affair. When taken in tow by the officers yesterday, Elliott asserted his innocence and did not admit his guilt to the end. Chief of Police Gurdane, Officer Ed-

wards and Priest went to the bootleg storehouse yesterday afternoon and found, enclosed in the wall behind a pasteboard cover and wall paper, a bottle of the liquor from which Anstey was given his supply.

Judge Thomas Fitzgerald gave Elliott the maximum penalty allowed by law, \$100 fine and 30 days in the city jail.

The Elliott whisky was a mixture of alcohol and brandy.

The record made by the detectives during the time they have been in Pendleton is of great gratification to the members of the city administration, who are in charge of the police department and to Chief Tom Gurdane. The regular officers have been keeping a close watch on the town and their success is evidenced by the fact that, during their stay in this city, the Burns men were able to secure but three cases.

Not a sign was found that would indicate that there was any bootlegging going on in the lodging houses of the city or in any of the soft drink establishments which have taken the place of the saloons. These places have been kept under control by the police and, in fact, the great majority of them are not inclined to go beyond the law.

The worst trouble the regular force has met has been in dealing with the professional bootleggers, such as the man who was convicted yesterday. These men are known to the police,

in many cases, but so are the police known to them and they are at great pains to make sure that there is no connection between the man to whom they sell and the city administration, so they are difficult to land. As a last extremity, it was decided to bring two of the Burns Detective Agency men here and the result was that all joints

in the town under suspicion have been cleaned up.

It is of course to be expected that more will locate here later but those must be dealt with as the future dictates.

Spokane Milliner Shot.
Spokane, Wash., July 7.—Theodore Tobiason, owner of a millinery store, was shot and killed here yesterday while in his store by Alphonso Pansiera, who, according to the police, said that Tobiason owed him \$5000. Tobiason recently asked the police to arrest Pansiera on an insanity charge.

The Reputation of the Maxwell

"WHAT is the bore and stroke of your motor," was asked a Maxwell owner not long ago.

"I don't know," he replied simply, "I don't buy cars on figures any more. I buy them on what they've done."

For this man, and for many others like him, it was enough that during the thirteen strenuous years the Maxwell record for performance, reliability and economy had swept it to the front.

Figures—engine speed figures, horse-power figures, wheel-base figures—they meant nothing to him. The name "Maxwell" carried more weight than all the technical description that could be offered.

Maxwell cars have achieved this great good will and this priceless position with the public only by their unequalled record of things done. What is said of an automobile in its specifications is one matter. What the car actually does in the hands of owners, year after year, is another matter.

The Maxwell car has won its position through sheer merit. It has set record after record in competition with cars of all prices and classes.

Everything considered, the Maxwell is the safe investment. It is a known, tried and proved product. It will serve you as it is serving and has served countless others.

Let us arrange for a demonstration today. You will be under no obligation. We want to give you a chance to convince yourself.
