### ELKS' BAND AT ROUNDUP

CONTRACT SIGNED FOR THREE-DAY ENGAGEMENT.

Union-Wallowa Counties to Have Official Lodge Band.

Officials of the Pendleton Roundup have closed a contract with the Elks' band of this city for a three-day engagement during the 1916 Roundup.

Bands from everywhere bid on this job and it is considerably of a compliment to the local organization that it was selected. It will be the official concert band of the three-day show.

The band also has a contract to play at Heppner during the fair there, which likewise is a musical plum. The two events are closely joined as to dates.

The band also has the Cove Cherry show date, July 20.

The Roundup dates are September 21-23 inclusive, and the Heppner dates September 14-16 inclusive.

Elgin Band Going.

It is now seemingly certain that the Elgin band will go to the supreme convention of Knights of Pythias at Portland, going as a Union-Wallowa counties Knights of Pythias band.

five in it, Elgin a few more than that, La Grande will likely have four or Union, Wallowa and Enterprise also having representation.

Thus Union county becomes a source of popular bands these days.

**Big Showing Anticipated.**

In connection with the Portland event, it is now apparent Eastern Oregon will be well represented, and especially Union and Wallowa counties which form the 11th district. Marching clubs from each lodge in the district, headed by the big band of 20 pieces from the two counties are looked upon as big features of the parade which will be held Tuesday August 1st, the day the supreme convention opens. The Elgin lodge has taken the initiative in arranging for the joint county band, and several of them were in consultation with the La Grande lodge last evening over this question. The band will be gone three days.

#### PARALYSIS FOUGHT.

Oregon Proposes to Prevent Spread of Malady to State.

From Portland comes the announcement that state officials are going to prevent, if possible, any spread of infantile paralysis to this state. The following announcement was made in Portland this morning:

The entire state of Oregon will be protected by strict preventative measures against the possible introduction of infantile paralysis infection, through orders issued yesterday by the State Board of Health, and forwarded by State Health Officer David N. Roberg to all local health officers, and county judges, throughout the state.

To further insure the observance of these precautions against the plague that is terrorizing New York, Governor Withycombe has been requested by the State Board of Health to issue a proclamation to the county judges of Oregon, instructing them to establish the quarantine at every railroad station within their jurisdiction.

The plan is simple, though necessarily involving a great deal of close observation and the employment of a regiment of medical inspectors and assistants.

Incoming passengers, under 15 years of age, from all Eastern points, will be met at each station by authorized inspectors. Their temperatures will be taken. If the temperature be above normal, or if any other indication of the dread malady is observed, the child be placed under strict quarantine.

Dr. Roberg stated that the Board of Commissioners of Portland will be asked to enact at once an emergency ordinance providing for assistance in the local enforcement of the regulations.

The text of the order issued by the State Board of Health, and which has been sent broadcast to every municipal health officer, county health officer, and county judge in Oregon, is as follows:

- 1.—That quarantine quarters be established at every railroad station at which incoming Eastern passengers may arrive.
- 2.—The city and county health officers are ordered by the State Board of Health to inspect all incoming passengers under 15 years of age.
- 3.—Health officers are ordered to keep a record of the children's names; date and point of departure, and destination; all points of stop-over, and length of time of stop-over.
- 4.—Health officers are ordered to

keep a record of the temperature of each child under 15 years of age.

5.—Any child showing rise of temperature, or symptom indicative of infantile paralysis, to be immediately quarantined in the local quarantine quarters provided for that purpose.

6.—Health officers are ordered to keep suspected children in quarantine until the temperature drops to normal, and there is no evidence of infection with the virus of infantile paralysis.

7.—Health officers are ordered to quarantine for 30 days, if necessary to establish absolutely that the child is not infected.

8.—The finding of any infection of infantile paralysis must be immediately telegraphed or telephoned to the State Board of Health.

#### Runaway Team Injures Couple.

Junction City, Or., July 7.—Mr. and Mrs. H. J. Dickey, of this place, were seriously injured yesterday afternoon when their team ran away. They had just delivered a load of berries to the cannery and started for home when the team became frightened and ran two blocks, when, on turning a corner quickly, the hack was overturned and the couple was thrown out, both striking against a building that stood near the road. Mr. Dickey was badly injured about the head and arms and his wife was severely bruised.

#### LOWLY CORN COB PIPE

Virtue In It, Although Many Women May Say "Nay"

(Indianapolis News)

There is virtue in a corn cob pipe. Many women will deny this. Some who have endured this herculean odor for the sake of the quieting effect it seemed to exert over a husband who is given to occasional manifestations of ill temper, will declare that while it may be virtuous at times, it is never more virtuous than when reposing in an airtight fruit jar on the cellar stairs.

Nevertheless, the corn cob pipe is not a thing to be sneezed at. It is a democratic institution. One evidence of the fact that this country is not so democratic as foreigners believe, is that according to the code of an American gentleman, the corn cob pipe must not be smoked while wearing a silk hat. But some men find difficulty in adapting themselves to the "Missouri meerschaum." They contend that the first puff from a new cob is like a breath from the nether regions. This aversion arises from the circumstance that, like a sponge, a new cob pipe should be dipped in water before it is used. After the first pipeful of tobacco has been smoked, it will be found that a liberal coat of ashes has attached itself to the walls of the pipe, rendering it thereafter much less like

ly to burn the tongue than it were initiated without the formality of baptism.

There is one place, however, where the cob pipe is distinctly dangerous, and that is in the mouth of a beginner in the mellow art of smoking. Mothers who dread the day when their

sons shall feel obliged to assert their entrance into man's estate by acquiring a taste for tobacco, will do well to buy a corn cob pipe and leave it carelessly about the house. In time it will be missed. So will the boy's appetite. But the appetite will come back.

### MODART CORSETS Front Laced

MODART

This Name Should Mean a Great Deal To You

THE MODART Corset has attained a degree of popularity that tells very plainly the story of appreciative MODART wearers.

Its style—its graceful lines—the poise it gives its wearers—the comfort—the exquisite materials—all spell satisfaction to the purchaser.

All MODARTS are created by Jennings—generally accounted the foremost figure in the world of corset designing.

If you have never experienced the pride of exceptional poise, and comfort of easy freedom found in every model of this master designer, you must try on a MODART Corset in our fitting room.
