Avoid Breakfast Cooking

New Post Toasties are ready to eat direct from the package. They have a fine new flavour—self-developed by a new patented process. It's the rare, true flavour of prime, white Indian corn itself, and these New Toasties are the first corn flakes that do not depend on cream and sugar for palatability.

The proof of this superior flavour is found by eating some from the package dry. They're deliciously good that way, but of course are usually served with cream or good milk.

Examine the New Post Toasties flakes. The quick, fierce heat of the new process of manufacture, not only raises the distinguishing little bubbles on each flake, but gives a body and firmness that makes the New Toasties a more substantial food than ordinary "corn flakes."

New Post Toasties do not "chaff" or crumble in the package, and they don't mush down when cream is added. They come to you untouched by hand, and in moisture-proof packages that preserve their delightful oven-crispness until served at your table.

Well worth trying—these

New Post Toasties

Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purposes for which it is intended. Buy it now. Obtainable everywhere.—Adv.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is! One will only adopt the morning luke bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

K. C. RED SOX UNNERVE L. G.

HOME-GUARD BADLY BEFUDGLED

Redemign Feature Was Fun and Skill Shown by Visitors

The Kansas City Red Sox won a ball game yesterday against La Grande's team that was marked by extreme rottenness during just half the procedure. The half was when the home squad had the field. Evans the backstop was out of town and the infield had to be weakened by switching Slate to the backstop job. That made it incumbent to put Berry, an inexperienced player, on first. Ford was sick and that compelled McInnis to put Palmer, a youngster, into the garden, and thus the team was badly disabled. Seemingly seized with stage fright at the very excellent ability of the visitors, the home-guard allowed four runs in the first inning, and thereafter were unable to get started. After that the visiting aggregation tried its best not to score, but they just couldn't help it and in the course of the game some funny plays developed.

At one point the visitors thought they had enough and sent one of their own men on the field to help put out the baserunners and he did. All in all it was a laughable affair, but the K. C. bunch ripped off some good fast plays at times and threw a little life into what ordinarily was a dull game. The pep and usual ability of a once-a-week team displayed in games with Valley league clubs, was entirely missing yesterday. For four innings McInnes struck out seven men, as that was about the only way open to retire the visitors. But the gait was too strenuous and Speed Meserve then took the mound and struck out four or five for the balance of the game. Fletcher, a southpaw, toyed with the home guard striking out nine. King was the only man who could consistently hit the K. C. emissary in the rifle pit, but even King had lost his old-time cunning at short when it came to fielding. The crowd was a small one.

By careful playing the visiting speed artists kept the score down to nine points and shut out their opponents' score. The lineup:

La Grande—Stacey cf, Meserve 3b-p, Slate c, King ss, Read 2b, Childers lf, Berry 1b, Palmer rf, McInnis p-3b.

Kansas City—Kester ss, Russell 3b, Crawford 2b, McKeen 1b, Falskin cf, Shimmell lf, Kennedy c, Fletcher p, Louk rf.

Faces on the Screen

(By M. M. Murphy)

Faces on the screen, we see you smile, And care departs from out our troubled hearts:

We drink the cup of joy with you the while And care not that you only play the parts, Faces on the screen!

Faces on the screen, we watch you sigh,

And taste the wormwood in the passing show; Then deep within our souls we mean to try To bear the burden—these the seeds you sow, Faces on the screen!

Faces on the screen, you teach us love,

And into sunless hearts a warmth steals; Then life's replete with blessing from above And all the world's a never-ending reel, Faces on the screen!

Bad Music

The old adage, that half a loaf is better than none at all, may apply to hunger, but not to motion pictures, in the opinion of the noted director, Cecil B. De Mille of the Jesse L. Lasky Feature Play Company.

Mr. De Mille takes up the cudgels against the automatic organ, the boy pianist, and the squeaky violin. He says:

"For a motion picture audience to watch an exciting production, accompanied by the most impossible kind of music, is as ridiculous as for an opera audience to hear a prima donna sing to the music of the overture. I venture to say that 50 per cent of the success of a motion picture is dependent upon the manner in which it is exhibited. The present system is absolutely chaotic. The effect produced in motion picture houses by playing big selections of music is just the same as though, at the opera, the tenor had finished his great aria and the prima donna came on to sing her love motif, but the orchestra kept right on with the tenor's aria.

"It is asking too much of the public to analyze the reasons for the confusion which follows in their own minds; all the public sees is the final effect. In many motion picture theatres, the orchestra, starting from nowhere in particular as regards the continuity of the performance, will start playing, say the "Tales of Hoffman," and then will play it through to its finish whether the scenes of the picture are comedy, tragedy, or pathos.

"Motion pictures are more to be likened to the opera in its most popular form than to the legitimate drama. On this account, music plays a most important part in the effectiveness of the entertainment. If the choice were to be given to the many millions of people in Great Britain and the United States who attend motion pictures daily, whether they wished their motion pictures with bad music, or no music at all, the vote for the latter condition would be unanimous, I firmly believe."
